Swiss Design Awards SDA are followed closely The winners' works are admired, envied and emulated The generous prize money allows designers to launch their careers and focus on lesser paid but critically recognised work Awards thus play the role of bellwethers of the scene However criticisms inevitably arise Speaking in hushed tones designers speculate as to why a colleague won over another Rumours have it that jury members favour their inner circles and exclude competitors Analysing this universe in detail Jonas Berthod retraces the recent history of the SDA and the emergence of a new design culture in Switzerland *Eidgenössische Preise für Design 2009*, 2010 Concerne les designers vaudois Sophie Ballmer Sami Benhadj David Keshavjee Julien Tavelli Tatiana Rihs **Bibliographie Der Berner Geschichte**, 2006 **Das Schweizer Buch**

Teixeira, 2013-10-07 This book analyzes the reforms that led to a differentiated landscape of higher education systems after university practices and governance were considered poorly adapted to contemporary settings and to their new missions This has led to a growing institutional differentiation in many higher education systems This differentiation has certainly contributed to making the institutional landscape more diverse across and within higher education systems This book covers this diversity Each part corresponds to a different but complementary way of looking at reforms and highlights what can be learnt on specific cases by adopting a specific perspective The first part analyzes the ongoing reforms and their evolution identifies their internal contradictions as well as the redefinitions and reorientations they experience and reveals the ideas representations ideologies and theories on which they are built The second part includes comparison between countries but also other comparative perspectives such as how one reform is developed in different regions of the same country as well as how comparable reforms are declined to different sectors The last part addresses the impact of the reforms What is known about the effectiveness of such instruments on higher education systems This part shows that reforms provoke new power games and reconfigure power relations
