

ALGEBRA - Part 1

PARTS 1 & 2 COMBINED COVER PRINCIPLES FOR BASIC, INTERMEDIATE & COLLEGE COURSES

SET THEORY

NOTATION

- $\{ \}$ braces indicate the beginning and end of a set notation; when listed, elements or members must be separated by commas. EX: $A = \{4, 8, 16\}$; sets are finite (ending, or having a last element) unless otherwise indicated.
- $\dots$ indicates continuation of a pattern. EX: $B = \{5, 10, 15, \dots, 85, 90\}$
- ∞ at the end indicates an infinite set, that is, a set with no last element. EX: $C = \{3, 6, 9, 12, \dots\}$
- $|$ is a symbol which literally means "such that."
- $\in$ means "is a member of" OR "is an element of." EX: If $A = \{4, 8, 12\}$, then $12 \in A$ because 12 is in set A .
- $\notin$ means "is not a member of" OR "is not an element of." EX: If $B = \{2, 4, 6, 8\}$, then $3 \notin B$ because 3 is not in set B .
- $\emptyset$ means empty set OR null set; a set containing no elements or members, but which is a subset of all sets; also written as $\{ \}$.
- $\subset$ means "is a subset of"; also may be written as $\subseteq$.
- $\not\subset$ means "is not a subset of"; also may be written as $\not\subseteq$.
- $A \subset B$ indicates that every element of set A is also an element of set B . EX: If $A = \{3, 6\}$ and $B = \{1, 3, 5, 6, 7, 9\}$, then $A \subset B$ because the 3 and 6 which are in set A are also in set B .
- 2^n is the number of subsets of a set when n equals the number of elements in that set. EX: If $A = \{4, 5, 6\}$, then set A has 8 subsets because A has 3 elements and $2^3 = 8$.

OPERATIONS

- $\cup$ means union.
- $A \cup B$ indicates the union of set A with set B ; every element of this set is either an element of set A OR an element of set B ; that is, to form the union of two sets, put all of the elements of both sets together into one set, making sure not to write any element more than once. EX: If $A = \{2, 4\}$ and $B = \{4, 8, 16\}$, then $A \cup B = \{2, 4, 8, 16\}$.
- $\cap$ means intersection.
- $A \cap B$ indicates the intersection of set A with set B ; every element of this set is also an element of BOTH set A and set B ; that is, to form the intersection of two sets, list only those elements which are found in BOTH of the two sets. EX: If $A = \{2, 4\}$ and $B = \{4, 8, 16\}$, then $A \cap B = \{4\}$.
- $\bar{A}$ indicates the complement of set A ; that is, all elements in the Universal set which are NOT in set A . EX: If the Universal set is the set of Integers and $A = \{0, 1, 2, 3, \dots\}$, then $\bar{A} = \{-1, -2, -3, -4, \dots\}$, $A \cap \bar{A} = \emptyset$.
- $A = B$ means all of the elements in set A are also in set B and all elements in set B are also in set A , although they do not have to be in the same order. EX: If $A = \{5, 10\}$ and $B = \{10, 5\}$, then $A = B$.
- $n(A)$ indicates the number of elements in set A . EX: If $A = \{2, 4, 6\}$, then $n(A) = 3$.
- $\sim$ means "is equivalent to"; that is, set A and set B have the same number of elements, although the elements themselves may or may not be the same. EX: If $A = \{2, 4, 6\}$ and $B = \{6, 12, 18\}$, then $A \sim B$ because $n(A) = 3$ and $n(B) = 3$.
- $A \cap B = \emptyset$ indicates disjoint sets which have no elements in common.

SETS OF NUMBERS

- Natural or Counting numbers = $\{1, 2, 3, 4, 5, \dots, 11, 12, \dots\}$
- Whole numbers = $\{0, 1, 2, 3, \dots, 10, 11, 12, 13, \dots\}$
- Integers = $\{\dots, -4, -3, -2, -1, 0, 1, 2, 3, 4, \dots\}$
- Rational numbers = $\{p/q \mid p \text{ and } q \text{ are integers, } q \neq 0\}$; the sets of Natural numbers, Whole numbers, and Integers, as well as numbers which can be written as proper or improper fractions, are all subsets of the set of Rational numbers.
- Irrational numbers = $\{x \mid x \text{ is a Real number but is not a Rational number}\}$; the sets of Rational numbers and Irrational numbers have no elements in common and are, therefore, disjoint sets.
- Real numbers = $\{x \mid x \text{ is the coordinate of a point on a number line}\}$; the union of the set of Rational numbers with the set of Irrational numbers equals the set of Real numbers.
- Imaginary numbers = $\{ai \mid a \text{ is a Real number and } i \text{ is the number whose square is } -1\}$; $i^2 = -1$; the sets of Real numbers and Imaginary numbers have no elements in common and are, therefore, disjoint sets.
- Complex numbers = $\{a + bi \mid a \text{ and } b \text{ are Real numbers and } i \text{ is the number whose square is } -1\}$; the set of Real numbers and the set of Imaginary numbers are both subsets of the set of Complex numbers. EX: $4 + 7i$, $3 - 2i$

PROPERTIES OF REAL NUMBERS

PROPERTIES OF REAL NUMBERS FOR ANY REAL NUMBERS a, b & c

PROPERTY	FOR ADDITION	FOR MULTIPLICATION
Closure	$a + b$ is a Real number	ab is a Real number
Commutative	$a + b = b + a$	$ab = ba$
Associative	$(a + b) + c = a + (b + c)$	$(ab)c = a(bc)$
Identity	$0 + a = a$ and $a + 0 = a$	$a \cdot 1 = a$ and $1 \cdot a = a$
Inverse	$a + (-a) = 0$ and $(-a) + a = 0$	$a \cdot \frac{1}{a} = 1$ and $\frac{1}{a} \cdot a = 1$ if $a \neq 0$
Distributive Property	$a(b + c) = ab + ac$	$a(b \cdot c) = (a \cdot b) \cdot c$

PROPERTIES OF EQUALITY FOR ANY REAL NUMBERS a, b & c

- Reflexive: $a = a$
- Symmetric: If $a = b$, then $b = a$
- Transitive: If $a = b$ and $b = c$, then $a = c$
- Addition Property: If $a = b$, then $a + c = b + c$
- Multiplication Property: If $a = b$, then $ac = bc$
- Multiplication Property of Zero: $a \cdot 0 = 0$ and $0 \cdot a = 0$
- Double Negative Property: $-(-a) = a$

PROPERTIES OF INEQUALITY FOR ANY REAL NUMBERS a, b & c

- Trichotomy: Either $a > b$, or $a = b$, or $a < b$
- Transitive: If $a < b$, and $b < c$, then $a < c$
- Addition Property of Inequalities: If $a < b$, then $a + c < b + c$
- Multiplication Property of Inequalities: If $a < b$, then $a \cdot c < b \cdot c$ if $c > 0$; if $c < 0$, then $a \cdot c > b \cdot c$

OPERATIONS OF REAL NUMBERS

ABSOLUTE VALUE

$|x| = x$ if x is zero or a positive number; $|x| = -x$ if x is a negative number; that is, the distance (which is always positive) of a number from zero on the number line is the absolute value of that number.

EXs: $|-4| = -(-4) = 4$; $|29| = 29$; $|0| = 0$; $|(-43)| = -(-43) = 43$

ADDITION

If the signs of the numbers are the same: Add the absolute values of the numbers; the sign of the answer is the same as the signs of the original two numbers.

EXs: $-11 + -5 = -16$ and $16 + 10 = 26$

If the signs of the numbers are different: Subtract the absolute values of the numbers; the answer has the same sign as the number with the larger absolute value.

EXs: $-16 + 4 = -12$ and $-3 + 10 = 7$

SUBTRACTION

$a - b = a + (-b)$; subtraction is changed to addition of the opposite number. That is, change the sign of the second number and follow the rules of addition (never change the sign of the first number since it is the number in back of the subtraction sign which is being subtracted). $14 - 6 \neq 14 + 6$.

EXs: $15 - 42 = 15 + (-42) = -27$; $-24 - 5 = -24 + (-5) = -29$; $-13 - (-45) = -13 + (+45) = 32$; $-62 - (-20) = -62 + (+20) = -42$

MULTIPLICATION

The product of two numbers which have the same sign is positive.

EXs: $(55)(3) = 165$; $(-30)(-4) = 120$; $(-5)(-12) = 60$

The product of two numbers which have different signs is negative, no matter which number is larger. EXs: $(-3)(70) = -210$; $(21)(-40) = -840$; $(50)(-3) = -150$

DIVISION (DIVISORS DO NOT EQUAL ZERO)

The quotient of two numbers which have the same sign is positive.

EXs: $(-14)(-7) = 2$; $(44)(11) = 4$; $(-4)(-8) = 5$

The quotient of two numbers which have different signs is negative, no matter which number is larger. EXs: $(-24)(6) = -4$; $(40)(-8) = -5$; $(-14)(36) = -25$

DOUBLE NEGATIVE

$-(-a) = a$; that is, the negative sign changes the sign of the contents of the parentheses. EXs: $-(-4) = 4$; $-(-17) = 17$

Algebra Part 1 Quickstudy Academic Book Review: Unveiling the Magic of Language

In a digital era where connections and knowledge reign supreme, the enchanting power of language has become more apparent than ever. Its power to stir emotions, provoke thought, and instigate transformation is actually remarkable. This extraordinary book, aptly titled "**Algebra Part 1 Quickstudy Academic**," written by a highly acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound impact on our existence. Throughout this critique, we will delve into the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.

Algebra Part 1 Quickstudy Academic Introduction

In today's digital age, the availability of Algebra Part 1 Quickstudy Academic books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Algebra Part 1 Quickstudy Academic books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Algebra Part 1 Quickstudy Academic books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Algebra Part 1 Quickstudy Academic versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Algebra Part 1 Quickstudy Academic books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Algebra Part 1 Quickstudy Academic books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Algebra Part 1 Quickstudy Academic books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and

making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Algebra Part 1 Quickstudy Academic books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Algebra Part 1 Quickstudy Academic books and manuals for download and embark on your journey of knowledge?

FAQs About Algebra Part 1 Quickstudy Academic Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Algebra Part 1 Quickstudy Academic is one of the best book in our library for free trial. We provide copy of Algebra Part 1 Quickstudy Academic in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Algebra Part 1 Quickstudy Academic. Where to download Algebra Part 1 Quickstudy Academic online for free? Are you looking for Algebra Part 1 Quickstudy Academic PDF? This is definitely going to save you time and cash in something you should think about.
