Alkaline Foods Cookbook Balancing Improving:

Alkaline Foods Cookbook Keith Exum, 2013-03-28 I was like most people when finding out about alkalinity I wanted to know what could I eat and how do I prepare and cook it Being a Chef and herbalist for over 25 years made it a lot easier for me than most to prepare alter and come up with new cooking ideas Some are under the impression that once you cook something that s alkaline you can destroy its alkalinity This is far from the truth For an example tomatoes contain lycopene a form of antioxidant Raw tomatoes have a total antioxidant potential of about 80 but if you cook the tomatoes the antioxidant potential increases six fold This is because the raw tomato has been transformed to trans lycopene in the cooked version do to the heat infusion and trans lycopene is much more readily absorbed by the body This is the same with most foods Finally a book that gives you the alkaline food list and how to prepare and cook them so you can n main healthy energized and vitalized Peace and Blessings Slay Alkaline Keith Exum CEO Alkaline Foods LLC *The Amazing Acid-Alkaline Cookbook* Bonnie Ross, 2012-05-22 It s no secret that the foods we eat have a direct impact on our health But did you know that for optimum wellness the body needs the proper pH balance of acid and alkaline compounds which are influenced by diet The problem is that as a society we tend to consume highly processed foods that produce acid This makes us prone to a variety of health problems from minor skin irritations to osteoporosis Bonnie Ross offers a solution with *The Amazing Acid Alkaline Cookbook* The book opens with pH basics including an explanation of how an overly acidic body wreaks havoc on health The author then presents ten chapters packed with over 140 kitchen tested recipes for perfectly balanced dishes that are both satisfying and delicious Choose from taste tempting breakfast favorites soups salads snacks and sides as well as delectable entr es baked goods and desserts With *The Amazing Acid Alkaline Cookbook* you ll learn how easy it is to make delicious meals that will naturally correct your body s pH balance helping you regain vigor and well being *DR. The various chemical reactions occurring in our body occur within the specific pH of 7.0. Hence our body tries to maintain the normal pH level by eliminating the acidic products formed by different metabolic processes. Our body needs alkaline mineral salts to buffer or neutralize the acids formed in our body. So it is necessary to have an alkaline diet if you want to improve the health. Our body has the blood pH between 7.35 and 7.45. By eating alkaline foods we help our body to maintain this pH level. This does not mean that one has to avoid acidic foods completely. We have to keep a balance of acidic and alkaline food so that our body will be able to maintain the pH balance with less effort. The diet most of us have contains processed sugars, refined grains, artificial sweeteners, etc., causes the formation of acids in our body. When these foods are combined with psychological stress, lack of exercise, lack of sleep, results in various degenerative diseases.
