The Great Ideas CHANGE Encyclopaedia Britannica, 2015-07-21 Seventy years ago Mortimer Adler sat down at a manual typewriter By his side was a list of authors a pyramid of books and 102 great ideas the 102 objects of thought that have collectively defined Western thought for more than 2 500 years He began writing in alphabetical order beginning with Angel and ending with World The essays originally published in the Syntopicon were and remain the centerpiece of Encyclopaedia Britannica s Great Books of the Western World These essays never before available except as part of the Great Books are according to Clifton Fadiman Adler s finest work Each essay War and Peace Love God Truth treats each idea as if the original authors from Homer to Freud from Marcus Aurelius to Virginia Woolf whose writings the ideas are drawn from were sitting around a table deep in conversation His purely descriptive synthesis presents the key points of view on almost 3 000 questions without endorsing or favoring any one of them More than a thousand pages containing more than half a million words on more than two millennia of Western thought The Great Ideas is a fitting capstone to the career of Mortimer J Adler The actual writing of the essays took 26 months seven days a week and no vacations or recesses Writing the 102 essays was like writing 102 books I think it was the most arduous and demanding stint of writing I have ever undertaken Mortimer J
