All the King's Horses Kimberly Gatto, Victoria Racimo, 2017-08-14 When Elvis Presley decided he wanted to buy a horse in 1966 he didn't want just any horse. He wanted a Golden Palomino. Priscilla Presley remembers. He would get up at 3:00 in the morning, go to certain farms and ranches and say, "Do you have a Golden Palomino for sale?" People would say, "That was Elvis Presley." Elvis's legendary love of horses drove him to find the Golden Palomino who would become his beloved companion, Rising Sun, and to fill Graceland's stables and Circle G Ranch with horses for family and friends to ride. In the first ever book dedicated to Elvis's equestrian side, horse lovers Kimberly Gatto and Victoria Racimo share rare stories, interviews, and photographs that shed light on the beautiful, quiet life the King lived when he was with his horses. *All the King's Horses* Indra Kagis McEwen, 2023-04-11 How the Italian Renaissance reinvented the power of princes by rediscovering Vitruvius and his architecture and justified their right to rule. In *Vitruvius: Writing the Body of Architecture*, Indra Kagis McEwen argued that Vitruvius's first-century BC treatise *De architectura* was informed by imperial ideology, giving architecture a role in the imperial Roman project of world rule. In her sequel *All the King's Horses*, McEwen focuses on the early Renaissance reception of Vitruvius's thought, beginning with Petrarch, a political reception preoccupied with legitimating existing power structures. During this age of princes, various signori took over Italian towns and cities, displacing independent communes and their avowed ideal of the common good. In turn, architects taking up Vitruvius's mantle designed for these princes with the intent of making their power manifest and celebrating the rule of one. Through meticulous descriptions of the work of architects and artists from Leon Battista Alberti to Leonardo da Vinci, McEwen explains how architecture became an instrument of control in the early Italian Renaissance. She shows how architectural magnificence supported claims to power, a phenomenon best displayed in one of the era's most prominent monumental themes: the equestrian statue of a prince, in which the horse became an emanation of the will of the rider, its strength the expression of his strength. *All the king's horses and all the king's men ...*, 1954 *All the King's Horses*, 1954 *All the Kings Horses* Amanda Murray, 2006-05-31 Since 1066, there have been 42 monarchs in Britain, each with their individual tastes and styles of government, yet the one thing which has always linked them is an overriding fascination and love of horses, from their use in war and pageantry to sport and leisure. Henry VIII and Elizabeth I bred horses at Hampton Court to race and imported stallions and mares from North Africa and the Middle East. James I and Charles I expanded the importation of Barb and Arab blood, and though Oliver Cromwell prohibited racing, the studs and racetracks of the Restoration were able to continue to produce some of the finest horses in the world. Amanda Murray's intriguing and comprehensive study offers a new history of the British royal family, told through the fascinating and often surprising story of *The Sport of Kings*. Discover how the side saddle was introduced, how horsemanship has always worked hand in hand with architecture, Queen Victoria's many and

impressive achievements as a breeder as well as countless other tales of the heroes and villains of horse racing and breeding
