Between Ballots And Bullets Algeria's Transition From Authoritarianism:

Between Ballots and Bullets William B. Quandt, 1998 In the Arab world as elsewhere authoritarian regimes have come under pressure for change As yet however democracy has not taken root as an alternative form of governance This book on Algeria looks at both the erosion of the authoritarian model and the difficulties of making a transition to democracy Within the past decade Algeria experienced one of the most promising experiments of opening up the political system and allowing a remarkable degree of freedom That initial effort failed however when elections were won by an Islamist party that was unacceptable to the military and it was followed by an explosion of political violence that in recent years has cost at least 75 000 lives Despite this deep crisis there are reasons to believe that Algeria may emerge from its turmoil with a consensus on the need to respect pluralism and to accept the basic rules of democratic politics Blending theoretical insights with an analysis of the Algerian case this book demonstrates that democratization is likely to be a difficult process in the Middle East but that the prospects for eventual success are not as gloomy as often asserted by those who see an incompatibility between democracy and Islam

Between Ballots and Bullets William B. Quandt, 2001-09-19 In the Arab world as elsewhere authoritarian regimes have come under pressure for change As yet however democracy has not taken root as an alternative form of governance This book on Algeria looks at both the erosion of the authoritarian model and the difficulties of making a transition to democracy Within the past decade Algeria experienced one of the most promising experiments of opening up the political system and allowing a remarkable degree of freedom That initial effort failed however when elections were won by an Islamist party that was unacceptable to the military and it was followed by an explosion of political violence that in recent years has cost at least 75 000 lives Despite this deep crisis there are reasons to believe that Algeria may emerge from its turmoil with a consensus on the need to respect pluralism and to accept the basic rules of democratic politics Blending theoretical insights with an analysis of the Algerian case this book demonstrates that democratization is likely to be a difficult process in the Middle East but that the prospects for eventual success are not as gloomy as often asserted by those who see an incompatibility between democracy and Islam

The New Authoritarianism in the Middle East and North Africa Stephen J. King, 2009-10-28 Stephen J King considers the reasons that international and domestic efforts toward democratization have failed to take hold in the Arab world Focusing on Egypt Tunisia Syria and Algeria he suggests that a complex set of variables characterizes authoritarian rule and helps to explain both its dynamism and its persistence King addresses but moves beyond how religion and the strongly patriarchal culture influence state structure policy configuration ruling coalitions and legitimization and privatization strategies He shows how the transformation of authoritarianism has taken place amid shifting social relations and political institutions and how these changes have affected the lives of millions Ultimately King's forward thinking analysis offers a way to enhance the prospects for democracy in the Middle East and North Africa

Political and Institutional Transition in North Africa Silvia Colombo, 2018-06-13 The year 2011 will go

down in history as a turning point for the Arab world The popular unrest that swept across the region and led to the toppling of the Ben Ali Mubarak and Qaddhafi regimes in Tunisia Egypt and Libya has fundamentally altered the social economic and political outlooks of these countries and the region as a whole This book assesses the transition processes unleashed by the uprisings that took place in Egypt and Tunisia in 2011 The wave of unrest and popular mobilisation that swept through these countries is treated as the point of departure of long and complex processes of change manipulation restructuring and entrenchment of the institutional structures and logics that defined politics The book explores the constitutive elements of institutional development namely processes of constitution making electoral politics the changing status and power of the judiciary and the interplay between the civilian and the military apparatuses in Egypt and Tunisia It also considers the extent to which these two countries have become more democratic as a result of their institutions being more legitimate accountable and responsive at the beginning of 2014 and from a comparative perspective The impact of temporal factors in shaping transition paths is highlighted throughout the book The book provides a comprehensive assessment of political and institutional transition processes in two key countries in North Africa and its conclusions shed light on similar processes that have taken place throughout the region since 2011 It will be a valuable resource for anyone studying Middle Eastern and North African politics area studies comparative institutional development and democratisation

An Introduction to the Modern Middle East, Student Economy Edition David Sorenson, 2018-10-03 This book introduces the politics of the modern Middle East which includes the countries of the Persian Gulf the eastern Mediterranean countries and North Africa It covers the major geographical regions that make up the Middle East and summarizes the post World War I history of the Middle East

The Battlefield Hugh Roberts, 2017-03-14 The violence that has ravaged Algeria has often defied explanation Regularly invoked in debates about political Islam transitions to democracy globalization and the right of humanitarian interference Algeria's tragedy has been reduced to a clash of stereotypes Islamists vs a secular state terrorists vs innocent civilians or generals vs a defenseless society The prevalence of such simplistic representations has disabled public opinion inside as well as outside the country and contributed to the intractability of the conflict This collection of essays offers a radical corrective to Western misconceptions Rejecting the usual tautological approaches of inherent predetermined conflict Hugh Roberts explores the outlook and evolution of the various internal forces as they emerged the Islamists the Berberists the factions within the army and the regime in general and he looks at external interests and actors He explains their strategies and the maneuvers in which they have engaged The resulting analyses illuminate the startling dynamics of the conflict and the real issues at stake and identify the implications not only for Algeria but also for this crucial region Informed by a deep knowledge of Algeria and Algerian history these accessible essays guide the reader through the extraordinary politics of the drama in all its complexity

A History of Islamic Societies Ira M. Lapidus, 2014-10-13 This new edition of one of the most widely used course books on Islamic civilizations around the world has been substantially revised to

incorporate the new scholarship and insights of the last twenty five years Ira Lapidus history explores the beginnings and transformations of Islamic civilizations in the Middle East and details Islam s worldwide diffusion The history is divided into four parts Part I is a comprehensive account of pre Islamic late antiquity the beginnings of Islam the early Islamic empires and Islamic religious artistic legal and intellectual cultures Part II deals with the construction in the Middle East of Islamic religious communities and states to the fifteenth century Part III includes the history to the nineteenth century of Islamic North Africa and Spain the Ottoman Safavid and Mughal empires and other Islamic societies in Asia and Africa Part IV accounts for the impact of European commercial and imperial domination on Islamic societies and traces the development of the modern national state system and the simultaneous Islamic revival from the early nineteenth century to the present

Human Rights in Islamic North Africa E. Ike Udogu,2020-02-12 It is one thing to craft superb human rights tenets in a constitution and another to enforce such policies in practice This book explores the contradictions between interpretations of constitutional tenets and the dogmas contained in the penal code of Islamic North Africa particularly in regard to Algeria Egypt Libya Morocco and Tunisia Provided are brief histories of each country that connect the colonial past to present day human rights records The author also suggests ways in which to mitigate human rights infractions to advance peaceful coexistence that could promote political and economic development

Transnational Histories of Youth in the Twentieth Century R. Jobs,D. Pomfret,2016-01-12 Through a variety of case studies Transnational Histories of Youth in the Twentieth Century examines the emergence of youth and young people as a central historical force in the global history of the twentieth century

Oil Wealth and the Poverty of Politics Miriam R. Lowi,2009-11-12 How can we make sense of Algeria s post colonial experience the tragedy of unfulfilled expectations the descent into violence the resurgence of the state Oil Wealth and the Poverty of Politics explains why Algeria s domestic political economy unravelled from the mid 1980s and how the regime eventually managed to regain power and hegemony Miriam Lowi argues the importance of leadership decisions for political outcomes and extends the argument to explain the variation in stability in oil exporting states following economic shocks Comparing Algeria with Iran Iraq Indonesia and Saudi Arabia she asks why some states break down and undergo regime change while others remain stable or manage to re stabilise after a period of instability In contrast with exclusively structuralist accounts of the rentier state this book demonstrates in a fascinating and accessible study that political stability is a function of the way in which structure and agency combine
