Between Reason and Illusion Jorge Cândido de Assis, Cecília Cruz Villares, Rodrigo Affonseca Bressan, 2023-03-09 This book realistically describes the experiences of people living with schizophrenia and their families from the detection of the first symptoms until the development of treatments and strategies to cope with this unique human condition Schizophrenia is a form of psychosis in which subjective aspects such as hallucinatory and delusional phenomena tend to distort the understanding of reality Because psychotic states fluctuate in intensity over time those affected literally live between reason and illusion *Between Reason and Illusion* Demystifying Schizophrenia is an invitation to understand what it means to develop schizophrenia and to live with it throughout one s life And this is an invitation to all those who are in some way affected by this condition those who live with it family members friends health professionals and everyone who want to have a non stigmatized view of mental disorders and people who live with them Faced with psychosis the person affected by the disease and the family are lost and go looking for alternative or spiritual help which usually delays the beginning of treatment Jorge Cec lia and Rodrigo had the courage to face a difficult theme and the happy idea of writing a book of an educational nature about schizophrenia The book s originality lies in the fact that it was written taking into account the experience of the person with the disease and his or her family members in the face of this something new that has occurred in their lives Dr Itiro Shirakawa Professor Emeritus of the Paulista Medical School of the Federal University of S o Paulo UNIFESP EPM Brazil

The Handbook of Global Interventions in Communication Theory Yoshitaka Miike, Jing Yin, 2022-03-10 Moving beyond the U S Eurocentric paradigm of communication theory this handbook broadens the intellectual horizons of the discipline by highlighting underrepresented especially non Western theorists and theories and identifies key issues and challenges for future scholarship Showcasing diverse perspectives the handbook facilitates active engagement in different cultural traditions and theoretical orientations that are global in scope but local in effect It begins by exploring past efforts to diversify the field continuing on to examine theoretical concepts models and principles rooted in local cumulative wisdom It does not limit itself to the mass interpersonal communication divide but rather seeks to frame theory as global and inclusive in scope The book is intended for communication researchers and advanced students with relevance to scholars with an interest in theory within information science library science social and cross cultural psychology multicultural education social justice and social ethics international relations development studies and political science The Works of Jonathan Edwards: Volume II - II Jonathan Edwards, 2017-03-29 Bringing together a collection of letters between two theologians along with other observations and reflections this volume continues to open the mind of any person wishing to be a serious theologian While many know about the big names such as Calvin or Luther many do not give credence to some of the important landmark works that writers such as Edwards helped to promote *The Works of Jonathan Edwards, Volume Two* , The Christology of John Macquarrie Vernon L. Purdy, 2009 The Christology of John Macquarrie comprehensively scrutinizes the life and writings of Scottish born systematic theologian and philosopher John Macquarrie 1919 2007 in an attempt to comprehend and evaluate his Christology The author examines the people e g Heidegger Schleiermacher the philosophical and theological positions and the writings that formed Macquarrie s thinking One major influence was his commitment to modern critical theology including the premise that in the modern world the only acceptable Christological tenets are those that can stand up to the scrutiny of modern critical reasoning The work concludes that this commitment profoundly shaped Macquarrie s theology especially his Christology The book also discusses Macquarrie s evaluation and criticisms of the Christology of other theologians e g Kierkegaard Moltmann Pannenberg and others concluding that Macquarrie s understanding of the Christian faith and the person of Jesus Christ is consonant with modern liberal Anglo Catholicism This idea furthers the argument that Macquarrie s reluctance to accept traditional incarnational categories suggests that his Christology is a modern form of Adoptionism *Historical Dictionary of Hume's Philosophy* Kenneth R. Merrill, 2008-08-22 The Historical Dictionary of Hume s Philosophy is the only Hume dictionary in existence The book provides a substantial account of David Hume s life and the times in which he lived and it provides an overview of his philosophical doctrines This is done through a chronology an introductory essay a bibliography and over a hundred cross referenced dictionary entries covering key terms as well as brief discussions of Hume s major works and of some of his most important predecessors contemporaries and successors *Feminisms and Pedagogies of Everyday Life* Carmen
