Beyond Any Manuscript Special Series Dialogue 2:

Experiencing the Beyond Gert Melville, Carlos Ruta, 2017-11-20 Experiencing the dimension that lies beyond our empirical grasp of the world has always been a challenge for human beings for it can expose the limitations of our agency Such experience while potentially terrifying can also furnish a basis for religious faith or hope of a better future The intercultural essays in this volume analyze ways of dealing with the beyond including magic religion myth and all promising utopias

Soft Power beyond the Nation Sylvia Dummer Scheel, Charlotte Faucher, Camila Gatica Mizala, 2024-11-01 An innovative interdisciplinary perspective on soft power in history moving beyond the framework of the nation state Starting in the nineteenth century as world events became more interconnected than ever and as public opinion began to weigh on democratic governments nations employed new communication strategies and propaganda to gain global influence and prestige Soft power strategies were used by different nation states and by supranational and nonstate actors that wanted to gain influence on the international stage Soft Power Beyond the Nation takes a distinct approach to the study of soft power in history moving beyond the framework of the nation state The volume editors use soft power to refer to the processes through which persuasion the search for influence and power and public opinion converge in the international arena The book is organized on the basis of three central themes the transnational circulation of knowledge and strategies of public diplomacy across borders collaboration of intermediary actors of soft power whose interests did not always coincide with those of the state and the role played by nonnational identities such as gender and race in soft power Soft Power Beyond the Nation enriches the historiographical study of soft power broadening its temporal and spatial scope and refreshing it with new perspectives on transnationalism gender and race This book will be of interest to scholars and students of history and international relations
