economics philosophy and psychology It covers both traditional and emerging methodologies including GDP cost benefit and
cost effectiveness analysis inequality and poverty metrics social welfare functions multidimensional indicators based on
capabilities and happiness based approaches *The Hegemony of Growth* Matthias Schmelzer, 2016-05-17 The first

The Balanced Development Index for Europe's OECD Countries, 1999-2017 Andrzej K. Koźmiński, Adam Noga, Katarzyna
Piotrowska, Krzysztof Zagórski, 2020-02-27 This book presents the Balanced Development Index BDI measuring
socioeconomic development in twenty two European OECD member countries in a period 1999-2017 Compared to other
composite measures of development BDI looks beyond traditional development indicators such as GDP to create an index
which gives equal weight to social economic objective and subjective aspects of development The BDI aggregates forty two
detailed indicators into four composite middle level indexes external economic characterizing functioning of national
economies in their international surroundings internal economic characterizing various aspects of domestic economic
conditions social expectations public hopes and fears concerning economic political and social conditions and current social
condition including both objective and subjective social indicators which are in turn aggregated into the general BDI index

The Solidarity Solution Kristi A. Olson, 2020-10-15 Kristi A Olson asks What is a fair income distribution She rejects equal
income shares equal pay undercompensates workers in dangerous and onerous jobs The envy test which takes both income
and work into account fares better Yet a distribution in which no one prefers someone else's circumstances to her own as the
envy test requires is unlikely to exist and even when it does exist the normative connection between envy and fairness has
not been established After critiquing existing answers Olson invokes the idea of mutual justifiability when someone claims
that her situation should be improved at someone else's expense she must be able to give a reason that cannot be reasonably
rejected by a free and equal individual who regards everyone else as the same To give the answer bite Olson distinguishes
two types of envy Reasons based on personal envy can be reasonably rejected reasons based on impersonal envy cannot
Olson then tests the solidarity solution against the theories of Ronald Dworkin Philippe Van Parijs and Marc Fleurbaey and

applies it directly to the concrete issues of the gender wage gap and taxation By providing a new approach to problems of fair resource allocation The Solidarity Solution establishes philosophical discussion as critical to today s fight to end economic injustice
