Beyond Chutzpah On The Misuse Of Anti Semitism And The Abuse Of History:

Beyond Chutzpah Norman G. Finkelstein, Norman Finkelstein, 2008-06-02 This volume corrects the historical record of anti-Semitism revealing recent scholarly consensus on the hottest issues of the Israel Palestine conflict especially human rights

Antisemitism and the Politics of History Scott Ury, Guy Miron, Gai Miron, 2023-10-21 A ground breaking collection of essays regarding the history implementation and challenges of using antisemitism and related terms as tools for both historical analysis and public debate A unique sophisticated contribution to current debates in both the academic and the public realms regarding the nature and study of antisemitism today

Knowing Too Much Norman G. Finkelstein, 2012 Traditionally American Jews have been broadly liberal in their political outlook indeed African Americans are the only ethnic group more likely to vote Democratic in US elections Over the past half century however attitudes on one topic have stood in sharp contrast to this group's generally progressive stance support for Israel Despite Israel's record of militarism illegal settlements and human rights violations American Jews have stretching back to the 1960s remained largely steadfast supporters of the Jewish homeland But as Norman Finkelstein explains in an elegantly argued and richly textured new book this is now beginning to change Reports by Human Rights Watch Amnesty International and the United Nations and books by commentators as prominent as President Jimmy Carter and as well respected in the scholarly community as Stephen Walt John Mearsheimer and Peter Beinart have increasingly pinpointed the fundamental illiberalism of the Israeli state In the light of these exposes the support of American Jews for Israel has begun to fray This erosion has been particularly marked among younger members of the community A 2010 Brandeis University poll found that only about one quarter of Jews aged under 40 today feel very much connected to Israel In successive chapters that combine Finkelstein's customary meticulous research with polemical brio *Knowing Too Much* sets the work of defenders of Israel such as Jeffrey Goldberg Michael Oren Dennis Ross and Benny Morris against the historical record showing their claims to be increasingly tendentious As growing numbers of American Jews come to see the speciousness of the arguments behind such apologies and recognize Israel's record as simply indefensible Finkelstein points to the opening of new possibilities for political advancement in a region that for decades has been stuck fast in a gridlock of injustice and suffering

Out of Bounds Matthew Abraham, 2014-01-02 Academic freedom is a key element of the academic enterprise in the U S However it does not seem to exist when scholars seek to advocate on behalf of Palestinian self-determination This unique work examines how the knowledge power nexus is shaping the discourse around the Israel Palestine conflict and restricting academic freedom Beginning with a discussion of American Zionism the work proceeds to explain why scholars working on the question of Palestine are often denied standard academic freedom This is supported by prominent cases such as Norman G Finkelstein's denial of tenure the Middle East Studies Department at Columbia University and Mearsheimer and Walt's book *The Israel Lobby* The work of Edward Said and Noam Chomsky are also discussed and the book concludes with recommendations for

protecting intellectual freedom to those seeking to critically pursue the question of Palestine This scholarly study will appeal to a broad audience of faculty students and readers who seek to understand the importance of academic freedom and the thorny debates surrounding the Israel Palestine conflict *Married to Another Man* Ghada Karmi,2007-05-20 Two rabbis visiting Palestine in 1897 observed that the land was like a bride beautiful but married to another man By which they meant that if a place was to be found for Israel in Palestine where would the people of Palestine go This is a dilemma that Israel has never been able to resolve No conflict today is more dangerous than that between Israel and the Palestinians The implications it has for regional and global security cannot be overstated The peace process as we know it is dead and no solution is in sight Nor as this book argues will that change until everyone involved in finding a solution accepts the real causes of conflict and its consequences on the ground Leading writer Ghada Karmi explains in fascinating detail the difficulties Israel's existence created for the Arab world and why the search for a solution has been so elusive Ultimately she argues that the conflict will end only once the needs of both Arabs and Israelis are accommodated equally Her startling conclusions overturn conventional thinking but they are hard to refute **Obligation in Exile** Ilan Zvi Baron,2014-12-22

Combining political theory and sociological interviews spanning four countries Ilan Zvi Baron explores the Jewish Diaspora Israel relationship and suggests that instead of looking at Diaspora Jews relationship with Israel as a matter of loyalty it is o **Zionism Vs. the West** Jonas E. Alexis,2018-04-03 A person can be brought into bondage in two different ways by force or by his own will Force is a crude way of bringing a person into submission but using the persons own free will can be done sophisticatedly and covertly Under the banner of democracy and freedom America has been under the bondage of what E Michael Jones has aptly called sexual liberation and political control for over fifty years In the first two volumes of the trilogy Alexis explored these ideological themes In this last volume he expands on some of those pernicious ideas emphasizing how Zionism for over sixty years has shaken the moral philosophical and intellectual foundation of much of Western culture The Iraq War alone will cost America at least six trillion dollars and as if to prove that America is still in bondage the oppressors continue to use sophisticated means to seduce Americans so that perpetual wars will never cease to exist in the Middle East and in much of the world This book will seek to address these and related issues and in the process tell us something about the fundamental nature of reality and how to approach this cosmic conflict which has dominated the West for over a thousand years

Intellectual Resistance and the Struggle for Palestine M. Abraham,2014-08-07 By positioning the late Edward Said's political interventions as a public intellectual on behalf of Palestinian populations living under Israeli occupation as a form of intellectual resistance Abraham moves to consider forms of physical resistance seeking to better understand the motivations of those who choose to turn their bodies into weapons *Christianity and Social Systems* Rosemary Radford Ruether,2009 From the earliest interactions of Christians with the Roman Empire to today's debates about the separation of church and state the Christian churches have been in complex relationships with various economic

and political systems for centuries. Renowned theologian Rosemary Radford Ruether analyzes the ways the Christian church has historically interacted with powerful systems such as patriarchy, racism, slavery, and environmentalism while looking critically at how the church shapes these systems today. With a focus on the United States, Christianity and Social Systems provides an introductory analysis of the interactions between the churches and major systems that have shaped western Christian and post-Christian society. Ruether discusses ideologies such as liberalism and socialism and includes three country case studies: Nicaragua, South Africa, and North and South Korea to further illustrate the profound influences Christianity and social systems have with each other. This book is neither an attack on the relationship between Christianity and these systems nor an apology but rather a nuanced examination of the interactions between them. By understanding how these interactions have shaped history, we can more fully understand how to make ethical decisions about the role of Christianity in some of today's most pressing social issues, from economic and class disparities to the environmental crisis.

Israel, Palestine and the Politics of Race Yasmeeen Abu-Laban, Abigail B. Bakan, 2019-10-31. As the situation in Israel/Palestine seems to become ever more intractable and protracted, the need for new ways of looking at recent developments and their historical roots is more pressing than ever. Bearing this in mind, Yasmeeen Abu-Laban and Abigail B. Bakan discuss the historic and contemporary dynamics in Israel/Palestine and their international reverberations from the unique vantage point of race, racialization, racism, and anti-racism. They therefore offer close analysis of the idea of Israel and the absence of Palestine by examining the concepts of race and identity in the region. With fresh coverage of themes relating to gender, indigeneity, the environment, surveillance, and the war on terror, *Israel/Palestine and the Politics of Race* will appeal to scholars in political science, sociology, and Middle East studies.
