Beyond The Last Village A Journey Of Discovery In Asias Forbidden Wilderness:

Beyond the Last Village Alan Rabinowitz, 2003-04-17 In 1993 Alan Rabinowitz called the Indiana Jones of wildlife science by The New York Times arrived for the first time in the country of Myanmar known until 1989 as Burma uncertain of what to expect Working under the auspices of the Wildlife Conservation Society his goal was to establish a wildlife research and conservation program and to survey the country's wildlife He succeeded beyond all expectations not only discovering a species of primitive deer completely new to science but also playing a vital role in the creation of Hkakabo Razi National Park now one of Southeast Asia's largest protected areas Beyond the Last Village takes the reader on a journey of exploration danger and discovery in this remote corner of the planet at the southeast edge of the Himalayas where tropical rain forest and snow covered mountains meet As we travel through this lost world a mysterious and forbidding region isolated by ancient geologic forces we meet the Rawang a former slave group the Taron a solitary enclave of the world's only pygmies of Asian ancestry and Myanmar Tibetans living in the furthest reaches of the mountains We enter the territories of strange majestic looking beasts that few people have ever heard of and fewer have ever seen golden takin red goral blue sheep black barking deer The survival of these ancient species is now threatened not by natural forces but by hunters with snares and crossbows trading body parts for basic household necessities The powerful landscape and unique people the author befriends help him come to grips with the traumas and difficulties of his past and emerge a man ready to embrace the world anew Interwoven with his scientific expedition in Myanmar and helping to inform his understanding of the people he met and the situations he encountered is this more personal journey of discovery *Beyond the Last Village* Alan Rabinowitz, 2001-08 The author describes his journey through the uncharted lands of northern Myanmar describing new species and trying to persuade the government to preserve the land

Life in the Valley of Death Alan Rabinowitz, 2010-08-30 Dubbed the Indiana Jones of wildlife science by The New York Times Alan Rabinowitz has devoted and risked his life to protect nature's great endangered mammals He has journeyed to the remote corners of the earth in search of wild things weathering treacherous terrain plane crashes and hostile governments Life in the Valley of Death recounts his most ambitious and dangerous adventure yet the creation of the world's largest tiger preserve The tale is set in the lush Hukaung Valley of Myanmar formerly known as Burma An escape route for refugees fleeing the Japanese army during World War II this rugged stretch of land claimed the lives of thousands of children women and soldiers Today it is home to one of the largest tiger populations outside of India a population threatened by rampant poaching and the recent encroachment of gold prospectors To save the remaining tigers Rabinowitz must navigate not only an unforgiving landscape but the tangled web of politics in Myanmar Faced with a military dictatorship an insurgent army tribes once infamous for taking the heads of their enemies and villagers living on less than one U S dollar per day the scientist and adventurer most comfortable with animals is thrust into a diplomatic minefield As he works to balance the interests of disparate factions and endangered wildlife his own life is

threatened by an incurable disease The resulting story is one of destruction and loss but also renewal In forests reviled as the valley of death Rabinowitz finds new life for himself for communities haunted by poverty and violence and for the tigers he vowed to protect

Seekins, 2017-03-27 Burma Myanmar is a Southeast Asian country that is emerging from crisis after more than a half century of hard line military rule and cultural diplomatic and economic isolation With the dissolution of its military regime the State Peace and Development Council in 2011 a formally civilian but military dominated constitutional government was inaugurated By 2012 Burma s president retired General Thein Sein had established a working relationship with Daw Aung San Suu Kyi the leader of the country s pro democracy movement since 1988 and after a 2012 by election she and members of her opposition party the National League for Democracy NLD entered the new Union Parliament as legislators However even with the election victory of Daw Suu Kyi and the NLD in the General Election of November 2015 Burma faces daunting challenges it is still one of the poorest countries in Southeast fissured by longstanding ethnic conflicts that have made a nationwide peace agreement elusive and its people s security and the environment are threatened by foreign economic exploitation Religious discord is also widely evident as Buddhist militants instigate violence against the country s religious minorities especially Muslims Today Burma s prospects are the most hopeful they have been for over half a century as the country takes steps along the road to a more open society and economy This edition of the Historical Dictionary of Burma Myanmar encompasses not only current developments but also Burma s over 1 500 years old recorded history and the most important features of its cultures ethnicity religions society and economy This is done through a chronology an introduction and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture **Tantra, Magic, and Vernacular Religions in Monsoon Asia** Andrea Aciri, Paolo E. Rosati, 2022-11-03 This book explores the cross and trans cultural dialectic between Tantra and intersecting magical and shamanic practices associated with vernacular religions across Monsoon Asia With a chronological frame going from the

mediaeval Indic period up to the present a wide geographical framework and through the dialogue between various disciplines it presents a coherent enquiry shedding light on practices and practitioners that have been frequently alienated in the elitist discourse of mainstream Indic religions and equally overlooked by modern scholarship The book addresses three desiderata in the field of Tantric Studies it fills a gap in the historical modelling of Tantra it extends the geographical parameters of Tantra to the vast yet culturally interlinked socio geographical construct of Monsoon Asia it explores Tantra as an interface between the Sanskritic elite and the folk the vernacular the magical and the shamanic thereby revisiting the intellectual and historically fallacious divide between cosmopolitan Sanskritic and vernacular local The book offers a highly innovative contribution to the field of Tantric Studies and more generally South and Southeast Asian religions by breaking traditional disciplinary boundaries Its variety of disciplinary approaches makes it attractive to both the textual diachronic and ethnographic synchronic dimensions It will be of interest to specialist and non specialist academic readers including scholars and students of South Asian religions mainly Hinduism and Buddhism Tantric traditions and Southeast Asian religions as well as Asian and global folk religion shamanism and magic
