Beyond Transparency Open Data And The Future Of Civic Innovation:

Beyond Transparency Brett Goldstein, Lauren Dyson, 2013-09-30 The rise of open data in the public sector has sparked innovation driven efficiency and fueled economic development While still emerging we are seeing evidence of the transformative potential of open data in shaping the future of our civic life and the opportunity to use open data to reimagine the relationship between residents and government especially at the local level As we look ahead what have we learned so far from open data in practice and how we can apply those lessons to realize a more promising future for America s cities and communities Edited by Brett Goldstein former Chief Data Officer for the City of Chicago with Code for America this book features essays from over twenty of the world s leading experts in a first of its kind instructive anthology about how open data is changing the face of our public institutions Contributors include Michael Flowers Chief Analytics Officer New York City Beth Blauer former director of Maryland StateStat Jonathan Feldman CIO City of Asheville Tim O Reilly founder this compilation presents us with a great deal to admire ample provocation and wise guidance from a group of remarkable individuals Susan Crawford author of *Captive Audience* Just as he did during his time in my administration Goldstein has brought together industry leaders to discuss issues of relevance in the open data movement and the practical implications of implementing these policies This book will help continue the work to make open government a reality across the country Mayor Rahm Emanuel City of Chicago A must read for anyone who is passionate about what open data can do to transform city living Boris Johnson Mayor of London

The Future of Open Data Pamela Robinson, Teresa Scassa, 2022-05-24 The Future of Open Data flows from a multi year Social Sciences and Humanities Research Council SSHRC Partnership Grant project that set out to explore open government geospatial data from an interdisciplinary perspective Researchers on the grant adopted a critical social science perspective grounded in the imperative that the research should be relevant to government and civil society partners in the field This book builds on the knowledge developed during the course of the grant and asks the question What is the future of open data The contributors insights into the future of open data combine observations from five years of research about the Canadian open data community with a critical perspective on what could and should happen as open data efforts evolve Each of the chapters in this book addresses different issues and each is grounded in distinct disciplinary or interdisciplinary perspectives The opening chapter reflects on the origins of open data in Canada and how it has progressed to the present date taking into account how the Indigenous data sovereignty movement intersects with open data A series of chapters address some of the pitfalls and opportunities of open data and consider how the changing data context may impact sources of open data limits on open data and even liability for open data Another group of chapters considers new landscapes for open data including open data in the global South the data priorities of local governments and the emerging context for rural open data

ECEG 2014 Proceedings of the 14th European Conference on e-Government Alexandru Ionas, 2014-12-06 Analysis of the value of new generation of e-government services and how can

the public sector become an agent of innovation through ICT Galasso, G.; Garbasso, G.; Farina, G.; Osimo, D.; Mureddu, F.; Kalvet, T.; Waller, P.,2016-01-01 The current social economic and technological developments are leading towards the emergence of a new generation of eGovernment Services defined within the scope of the study as Open eGovernment Services OGS Such OGS are open collaborative and digital based services characterised by a deliberate declared and purposeful effort to increase openness and collaboration through technology in order to deliver increased public value These open collaborative and co production features exist in all phases of the design deployment implementation and delivery of the service In this regard the objective of the study was to better understand what OGS are what is their value for society and how the public sector should innovate to foster their use and maximize their impact on society To this aim the study produced the following results 1 a definition and a taxonomy of OGS 2 an assessment of the value of OGS based on a costs benefits analysis aggregated and extrapolated across European countries completed with an assessment of the non monetized benefits 3 the assessment of how public sector innovation happens and how the implementation of OGS can be accelerated by mean of appropriate policy measures

The Participant Christopher M. Kelty,2020-01-21 Participation is everywhere today It has been formalized measured standardized scaled up network enabled and sent around the world Platforms algorithms and software offer to make participation easier but new technologies have had the opposite effect We find ourselves suspicious of how participation extracts our data or monetizes our emotions and the more procedural participation becomes the more it seems to recede from our grasp In this book Christopher M Kelty traces four stories of participation across the twentieth century showing how they are part of a much longer term problem in relation to the individual and collective experience of representative democracy Kelty argues that in the last century or so the power of participation has dwindled over time it has been formatted in ways that cramp and dwarf it even as the drive to participate has spread to nearly every kind of human endeavor all around the world The Participant is a historical ethnography of the concept of participation investigating how the concept has evolved into the form it takes today It is a book that asks Why do we participate And sometimes Why do we refuse

The Right to the Smart City Paolo Cardullo,Cesare Di Felicianantonio,Rob Kitchin,2019-06-07 Globally Smart Cities initiatives are pursued which reproduce the interests of capital and neoliberal government rather than wider public good This book explores smart urbanism and the right to the city examining citizenship social justice commoning civic participation and co creation to imagine a different kind of Smart City

Designing Smart and Resilient Cities for a Post-Pandemic World Anthony Larsson,Andreas Hatzigeorgiou,2022-08-31 Are pandemics the end of cities Or do they present an opportunity for us to reshape cities in ways making us even more innovative successful and sustainable Pandemics such as COVID 19 and comparable disruptions have caused intense debates over the future of cities Through a series of investigative studies Designing Smart and Resilient Cities for a Post Pandemic World Metropandemic Revolution seeks to critically discuss and compare different cases innovations and approaches as to how

cities can utilise nascent and future digital technology and or new strategies in order to build stronger resilience to better tackle comparable large scale pandemics and or disruptions in the future The authors identify ten separate societal areas where future digital technology can impact resilience These are discussed in individual chapters Each chapter concludes with a set of proposed action points based on the conclusions of each respective study These serve as solid policy recommendations of what courses of action to take to help increase the resilience in smart cities for each designated area Securing resilience and cohesion between each area will bring about the metropandemic revolution This book features a foreword by Nobel laureate Peter C Doherty and an afterword by Professor of Urban Technologies Carlo Ratti It provides fresh and unique insights on smart cities and futures studies in a pandemic context offers profound reflections on contemporary societal functions and the needs to build resilience and combines lessons learned from historical pandemics with possibilities offered by future technology
