

1. Refer to the diagram overlaid and install the mounting base on the ceiling or on the wall (if local ordinances permit) using screw locations as required. Use the two screws and anchors provided. Maneuver the base so the screws are at the elbow of the screw slots and secure.
2. Fit the detector inside the base by aligning it over the base as shown (detector's mounting notches offset from mounting base tamper release slot); then turn the detector in a clockwise direction until it clicks into place.
3. Test the detector after completing the installation (as described in the TESTING THE DETECTOR section of this manual) and refer to the control system's instructions.
