Garrod, Robert Kilkenny, 2022-04-25 Adolescent Portraits introduces contemporary theories and research that surround adolescent development today through eighteen first person accounts written by young adults The case study approach of the book illustrates the complexity of the individual experience and the interactions among an individual s needs ideas relationships and context Each case taken alone helps us begin to know one more adolescent and his or her experience taken together the cases provide a rich overview of the wide diverse and complex range of adolescent experiences This edition also includes three follow up essays written five or more years after their original memoir The authors of these follow ups reflect on their original story written in late adolescence from the more mature point of view of full fledged adulthood These retrospectives provide a poignant and lifespan developmental perspective on the ways in which the adolescent themes of identity and challenges transform for better or worse with the tasks of adulthood With contributions from adolescents from a range of racial class and family backgrounds the book provides a diverse introduction to the adolescent experience It is a must read for any student of adolescent development Dealing with Dying, Death, and Grief during Adolescence David E.

Balk, 2014-02-18 For some life s introduction to death and grief comes early and when it does it can take many forms Not only does Dealing with Dying Death and Grief during Adolescence tackle them all it does so with David Balk s remarkable sensitivity to and deep knowledge of the pressures and opportunities adolescents face in their transition from childhood to adulthood In seamless jargon free language Balk brings readers up to date with what we know about adolescent development because over time such changes form the backstory we need to comprehend the impact of death and bereavement in an adolescent s life The book s later chapters break down the recent findings in the study of life threatening illness and bereavement during adolescence And crucially these chapters also examine interventions that assist adolescents coping with these difficulties Clinicians will come away from this book with both a grounded understanding of adolescent development and the adolescent experience of death and they ll also gain specific tools for helping adolescents cope with death and grief on their own terms For any clinician committed to supporting adolescents facing some of life s most difficult experiences this integrated up to date and deeply insightful text is simply the book to have David E Balk is professor in the department of health and nutrition sciences at Brooklyn College CUNY where he directs the graduate program in thanatology He is the author of Adolescent Development Early Through Late Adolescence Helping the Bereaved College Student and several other books on death and bereavement He is also co editor of the 2nd edition of the Handbook of Thanatology Routledge 2013
