Ancient Judaism New Visions And Views:

Ancient Judaism Michael E. Stone, 2011-03-22 In *Ancient Judaism New Visions and Views* Michael Stone examines a broad range of basic issues in the study of Second Temple Judaism and calls for a radical rethinking of approaches to Jewish history. Stone challenges scholars and students to question theologically conditioned histories of ancient Judaism devised by later orthodoxies, whether Jewish or Christian, and to acknowledge religious experience as a major factor in the composition and transmission of ancient religious documents. He urges readers to look above and beyond the spectacles of tradition and cultural memory that too often distort their understanding of the ancient past. Addressing an assortment of topics regarding the authorship, transmission, and interpretation of the canonical Hebrew Bible, the Dead Sea Scrolls, apocryphal and pseudepigraphic literature, and more, Stone's *Ancient Judaism* underscores the stunning complexity of both the raw data and the resulting picture of Judaism in antiquity. Publisher description

Pro Ecclesia Vol 23-N3 Pro Ecclesia, 2014-07-18 Pro Ecclesia is a quarterly journal of theology published by the Center for Catholic and Evangelical Theology

Luke/Acts and the End of History Kylie Crabbe, 2019-11-18 *Luke Acts and the End of History* investigates how understandings of history in diverse texts of the Graeco-Roman period illuminate Lukan eschatology. In addition to Luke Acts, it considers ten comparison texts as detailed case studies throughout the monograph: Polybius's *Histories*, Diodorus Siculus's *Library of History*, Virgil's *Aeneid*, Valerius Maximus's *Memorable Doings and Sayings*, Tacitus's *Histories*, 2 Maccabees, the Qumran War Scroll, Josephus's *Jewish War*, 4 Ezra, and 2 Baruch. The study makes a contribution both in its method and in the questions it asks. By placing Luke Acts alongside a broad range of texts from Luke's wider cultural setting, it overcomes two methodological shortfalls frequently evident in recent research: limiting comparisons of key themes to texts of similar genre and separating non-Jewish from Jewish parallels. Further, by posing fresh questions designed to reveal writers' underlying conceptions of history, such as beliefs about the shape and end of history or divine and human agency in history, this monograph challenges the enduring tendency to underestimate the centrality of eschatology for Luke's account. Influential post-war scholarship reflected powerful concerns about salvation history arising from its particular historical setting and criticised Luke for focusing on history instead of eschatology due to the parousia's delay. Though some elements of this thesis have been challenged, Luke continues to be associated with concerns about the delayed parousia affecting contemporary interpretation. By contrast, this study suggests that viewing Luke Acts within a broader range of texts from Luke's literary context highlights his underlying teleological conception of history. It demonstrates not only that Luke retains a sense of eschatological urgency seen in other New Testament texts, but a structuring of history more akin to the literature of late Second Temple Judaism than the non-Jewish Graeco-Roman historiographies with which Luke Acts is more commonly compared. The results clarify not only Lukan eschatology but related concerns or effects of his eschatology, such as Luke's politics and approach to suffering. This monograph thereby offers an important corrective to readings of Luke Acts based on established exegetical habits and will

help to inform interpretation for scholars and students of Luke Acts as well as classicists and theologians interested in these key questions

Creation, Covenant, and the Beginnings of Judaism Ari Mermelstein, 2014-10-13 This study examines the relationship between time and history in Second Temple literature Numerous sources from that period express a belief that Jewish history began with an act of covenant formation and proceeded in linear fashion until the exile an unprecedented event which severed the present from the past The authors of Ben Sira Jubilees the Animal Apocalypse and 4 Ezra responded to this theological challenge by claiming instead that Jewish history began at creation Between creation and redemption history unfolds as a series of static repeating patterns that simultaneously account for the disappointments of the Second Temple period and confirm the eternal nature of the covenant As iterations of timeless cyclical patterns the difficult post exilic present and the glorious redemption of the future emerge as familiar unremarkable and inevitable historical developments

Theory and Practice in Essene Law Aryeh Amihay, 2017 This book offers a novel approach for the study of law in the Judean Desert Scrolls using the prism of legal theory Following a couple of decades of scholarly consensus withdrawing from the Essene hypothesis it proposes to revive the term and suggests employing it for the sectarian movement as a whole while considering the group that lived in Qumran as the Yahad It further proposes a new suggestion for the emergence of the Yahad based on the roles of the Examiner and the Instructor in the two major legal codes the Damascus Document and the Community Rule The understanding of Essene law is divided into concepts and practices in order to emphasize the discrepancy between creed rhetoric and practices The abstract exploration of notions such as time space obligation intention and retribution is then compared against the realities of social practices including admission initiation covenant leadership reproof and punishment The legal analysis yields several new suggestions for the study of the scrolls first Amihay proposes to rename the two strands of thought of Jewish law formerly referred to as nominalism and realism with the terms legal essentialism and legal formalism The two laws of admission in the Community Rule are distinguished as two different laws one of an association for a group as a whole the other as an admission of an individual The law of reproof is proven to be an independent legal procedure rather than a preliminary stage of prosecution The methodological division in this study of thought and practice provides a nuanced approach for the study of law in general and religious law in particular

Monotheism and Narrative Development of the Divine Character in the Hebrew Bible Mark McEntire, 2023-12-21 The preeminent example of monotheism the God of the Hebrew Bible is the end product of a long process The world from which this literature emerged was polytheistic The nature and arrangement of the literature diminishes polytheistic realities and enhances the effort to portray a single divine being The development of this divine character through the course of a sustained narrative with a sequential plot aided the move toward monotheism by allowing for the placement of diverse even conflicting portrayals of the deity at distant points along the plot line Through the sequence of events the divine character becomes more withdrawn from the sphere of human activity more aged in appearance and behavior and increasingly disembodied All these characteristics lend themselves to the presentation of disparate narrative portrayals as a singular subject in this Element

Paul and the Vocation of Israel Lionel J. Windsor, 2014-04-01 The Apostle Paul was the greatest early missionary of the Christian gospel He was also by his own admission an Israelite How can both these realities coexist in one individual This book argues that Paul viewed his mission to the Gentiles in and of itself as the primary expression of his Jewish identity The concept of Israel's divine vocation is used to shed fresh light on a number of much debated passages in Paul's letter to the Romans
