The Politics of the President's Wife MaryAnne Borrelli, 2011-08-15 As the West Wing has grown in power and organizational complexity during the modern

presidency so has the East Wing office home to the First Lady of the United States This groundbreaking work by MaryAnne Borrelli offers both theoretical and substantive insight into behind the scenes developments from the time of Lou Henry Hoover to the unfolding tenure of Michelle Robinson Obama Political scientists and historians have recognized the personal influence the First Lady can exercise with her husband and they have noted the moral ethical and sometimes policy leadership certain presidents wives have offered Nonetheless scholars and commentators alike have treated the personal relationship and the professional relationship as overlapping Borrelli offers a compelling counter perspective that the president s wife exercises power intrinsic to her role within the administration Like others within the presidency she has sometimes presented the president s views to constituents and sometimes presented constituents views to the president thus taking on a representative function within the system In mediating president constituent relationships she has given a historical and social frame to the presidency that has enhanced its symbolic representation she has served as a gender role model enriching descriptive representation in the executive branch and she has participated in policy initiatives to strengthen an administration s substantive representation These contributions have been controversial as might be predicted for a gender outsider but they have unquestionably made the First Lady a representative of and to the president and by extension the president s administration

Radical Tenderness Gisele Barreto Fetterman, 2025-07-08 An inspiring manifesto from philanthropist and advocate Gisele Barreto Fetterman that explores her surprising source of power and strength vulnerability and how we can all harness it to effect meaningful change As a society we shy away from public expressions of vulnerability mistaking it for weakness or a lack of grit To even talk about crying much less shed tears publicly is seen as shameful or cringeworthy But for Gisele Barreto Fetterman accessibility advocate and wife of Senator John Fetterman showing strong emotions has always been her default at events during speeches in her car or even at the grocery store Friends and family warned Gisele that the world would eat her alive if she didn t toughen up But over the years Fetterman came to a realization her emotional tenderness was not her downfall but her strength one that could be incorporated into her leadership style to show a different way to create true social and cultural change In Radical Tenderness Gisele Barreto Fetterman courageously shares her story of power through vulnerability from her childhood survival years as a Brazilian American undocumented immigrant to the prejudice she experienced in corporate and political settings to her hardships and resilience stepping into her husband s role when he suffered a stroke Through it all Gisele learned that leading with tenderness whether at the office as a boss or as a human being can help us face challenges in a healthier more authentic way and in turn guides others to do the same Ultimately Gisele redefines strength and leadership for our modern times presenting tools for surviving and thriving in a world designed to wreck the tender hearted Because by embracing those emotions publicly laughter vulnerability and yes even tears we not only honor ourselves but open a path toward changing the world

In Defense of Politicians Stephen K. Medvic, 2013 Politicians are reviled From jokes on late night TV talk shows

to radio show rants and from public opinion polls to ubiquitous conventional wisdom politicians are among the most despised professional class in modern society Drawing on seminal work in political science Stephen K Medvic convincingly argues to the masses that this blanket condemnation of politicians is both unfair and unwarranted While some individual politicians certainly deserve scorn for misjudgments moral failings or even criminal acts the assumption that all of them should be cast in a similar light is unjustified More importantly that deeply cynical assumption is dangerous to the legitimacy of a democratic system of government Politicians as a class deserve respect not out of blind obedience to authority but because democratic deliberation requires it Medvic explains how cognitive biases in the way people reason often lead us to draw unjustified conclusions of politicians in general based on the malfeasance of some Scandals involving politicians are likely to be remembered and to serve as evidence of the belief that they all do it Most politicians in fact care deeply about their cities states and nation But they face a trap of unrealistic and contradictory expectations from the public about how politicians should behave Medvic in turn demonstrates the necessity of ambition the utility of politics for resolving conflicts peacefully and the value of ideology in framing political choices In the end citizens must learn to tolerate the inherent messiness of politics as the only viable alternative to violent conflict In the process we must embrace our role in the political system as well
