Early Warning Systems and Targeted Interventions for Student Success in Online Courses Glick, Danny, Cohen, Anat, Chang, Chi, 2020-06-26 Online learning has increasingly been viewed as a possible way to remove barriers associated with traditional face to face teaching such as overcrowded classrooms and shortage of certified teachers While online learning has been recognized as a possible approach to deliver more desirable learning outcomes close to half of online students drop out as a result of student related course related and out of school related factors e g poor self regulation ineffective teacher student student student and platform student interactions low household income Many educators have expressed concern over students who unexpectedly begin to struggle and appear to fall off track without apparent reason A well implemented early warning system therefore can help educators identify students at risk of dropping out and assign and monitor interventions to keep them on track for graduation Despite the popularity of early warning systems research on their design and implementation is sparse

Early Warning Systems and Targeted Interventions for Student Success in Online Courses is a cutting edge research publication that examines current theoretical frameworks research projects and empirical studies related to the design implementation and evaluation of early warning systems and targeted interventions and discusses their implications for policy and practice Moreover this book will review common challenges of early warning systems and dashboard design and will explore design principles and data visualization tools to make data more understandable and therefore more actionable Highlighting a range of topics such as curriculum design game based learning and learning support it is ideal for academicians policymakers administrators researchers education professionals instructional designers data analysts and students

Kaplan SAT Kaplan, Inc., 2004-03 As SAT II Subject Tests become an

increasingly important criteria for college admissions more students will turn to Kaplan's SAT II guides for the preparation and strategies they need to do well on these challenging exams

Learning to Survive Mneesha Gellman, 2025-11-18 Traces the experiences of Yurok high school students and educators as they navigate between Native and non Native spaces Learning to Survive explores how Native American youth are impacted by formal educational experiences through the insights of students and teachers working to revitalize the Yurok language Sharing stories of Native American resilience amidst toxic school and community cultures Mneesha Gellman examines the consequences of the misrepresentation and suppression of Indigenous culture in secondary education Through personal testimonies and interviews from Northern California high schools Gellman traces the experiences of students as they navigate their own identities between Native and non Native spaces and of educators who relate their efforts in providing their students with not just language instruction but a sense of support and community that goes beyond the classroom Students and teachers alike detail how they struggle to thrive under systems of white supremacy while protecting and preserving their identity and culture particularly through the work of language education and language keeping Learning to Survive highlights the profound harm done by perpetuating White supremacy and the importance of investing in culturally sustaining curricula Youth well being suffers when students are faced with hostile school environments and when they do not see themselves or their communities truthfully or positively represented in curricula This book calls on adults policymakers teachers families and others to consider what changes we can and should make in our daily work to promote Native American well being in schools

The Open Classroom Jo Bradley, 2005-09-29 The e revolution that has swept the higher and further education sector over the last decade is now starting to make a real impact in school level teaching and learning around the world There is a rapidly growing interest in and demand for open and distance learning solutions for schools not only in terms of improving access for example for the children of travellers or for those in geographically remote areas but also in terms of improving pedagogy for more conventional teaching by offering teachers parents and pupils greater support and access to learning materials and resources This ground breaking book with contributions from around the world including the UK US New Zealand Canada and India looks at the key areas of development in this new field provides best practice examples and inspiring case studies and will increase the awareness of the opportunities and challenges in this potentially huge field
