Apophenion A Chaos Magic Paradigm:

The Apophenion Peter J. Carroll, 2008 Apophenion attacks most of the great questions of being free will consciousness meaning the nature of mind and humanity's place in the cosmos from a magical perspective Some of the conclusions seem to challenge many of the deeply held assumptions that our culture has taught us so brace yourself for the paradigm crash and look for the jewels revealed in the wreckage This book contains something to offend everyone enough science to upset the magicians enough magic to upset the scientists and enough blasphemy to upset most transcendentalists

The Chaos Protocols Gordon White, 2025-08-05 The years since the financial crash have seen the realization dawn that the great promise of modern civilization will go unfulfilled Study hard work hard buy a house retire happy It's all a lie spun for the benefit of a tiny elite The richest eighty five people on earth have as much wealth as the poorest 3.5 billion Each month the numbers change but they never improve Magical and spiritual discourse has failed to keep up with this new reality The Chaos Protocols aims to fix that Join Gordon White as he shows you how to use chaos magic not only to navigate these trying times but to triumph as well Discover how to become invincible through initiation and wage the mind war that will keep you moving toward what you really want From sigil magic to working with spiritual allies The Chaos Protocols helps you act on the unwavering belief that your life should matter and you're not going to let something as trifling as the apocalypse get in the way of it Praise Gordon White gives a master class on the hard economic realities and the kind of low down and dirty magic for which he has become famous Pragmatic sharp and funny The Chaos Protocols is a treasure of a book Peter Grey author of Apocalyptic Witchcraft Take two parts Magick Without Tears a measure of The Wealth of Nations a pinch of Ian Fleming and a dash of Noel Coward and you have this almost promiscuously readable text Whoever said books on magick can't be fabulously entertaining as well as eminently practical has obviously not read up on their Gordon White Remedy that situation Chris Knowles author of The Secret History of Rock n Roll and Our Gods Wear Spandex

Speculation, Heresy, and Gnosis in Contemporary Philosophy of Religion Joshua Ramey, Matthew S. Haar Farris, 2016-10-12 Many in continental philosophy of religion aver that we are in a new moment one where the intellectually marginalized and religiously bastardized traditions of mystical intuitive and esoteric apprehensions must be re-articulated and appreciated anew In an era marked by catastrophic events and atrophied cultural institutions what seems to be needed is an affirmation of the human potential to truck with non human or even inhuman forces and intentions at scales of speed slowness or intensity that break with consensual conceptions of human limitations The essays in this volume outline patterns of mind and mortality existence and ecstasy creativity and expression political possibility and religious matrix from a position that takes quite seriously possible relations with the absolute however enigmatic that modernity has denied and postmodernity has obscured in the name of academic skepticism and humanist reservations Beyond post modernist pastiche and post secular nostalgia these essays explore the potencies of archaic spiritual disciplines as well as the passions driving the mystical heretical and Gnostic

intimations riddling contemporary relations with the absolute
