Basic Sciences In Obstetrics And Gynaecology:

Basic Sciences for Obstetrics and Gynaecology: Core Materials for MRCOG Part 1 Austin Ugwumadu, 2014-06-19 This textbook takes a new dynamic approach to the basic sciences in obstetrics and gynaecology It teaches candidates all they need to know for the MRCOG Part 1 examination by extending the understanding of the basic medical sciences and their relevance to obstetrics and gynaecology Like conventional textbooks it teaches what is true but it also what is false and why The most complex concepts are discussed in a problem based format so that the relevant basic sciences are taught and drawn together in context

Basic Sciences for Obstetrics and Gynaecology Tim Chard, Richard Lilford, 2012-12-06 In the four years since the publication of the second edition this book has been very well received by those for whom it was intended candidates for primary examinations in Obstetrics and Gynaecology In consequence we make no excuse for repeating the formula of addressing only those facts which are neither speculative nor contentious An attempt to widen this brief would multiply the length of the book by three or four times and would place it in an identical category with several much larger texts which we recommend at the end of each chapter to those seeking a deeper understanding of any particular subject As the underlying philosophy remains the same the main changes in the third edition are the addition of new material and revision of existing material Revision of existing material has been extensive with many detailed changes aimed at expanding the factual base while retaining or improving the clarity of explanation In addition the book is now associated with an MCQ Tutor which has proved especially popular Finally and probably most important many of the changes are those which have been suggested by readers and reviewers of the first and second editions this feedback has been invaluable to the authors and we now hope will be equally valuable to readers of the new edition

Textbook for MRCOG-1 Richa Saxena, 2019-06-30 This new edition of Textbook for MRCOG 1 Basic Sciences in Obstetrics Gynaecology is a comprehensive resource for candidates preparing for the MRCOG Part 1 exam and all medical students wishing to pursue specialisation in obstetrics and gynaecology in the UK The book is divided into seventeen sections in accordance with the latest exam format and curriculum from the Royal College of Obstetricians and Gynaecologists RCOG The second edition has been fully revised and updated and includes two new chapters on data interpretation and image based questions Images flowcharts and tables assist learning and each topic concludes with SBAs Single Best Answers to help students prepare for examinations 1200 SBAs are included throughout the book Key Points Comprehensive study resource for MRCOG Part 1 exam candidates Fully revised second edition with new topics included Includes 1200 SBA questions for self assessment Previous edition
