Dress Making NISHANT BAXI,2020-01-26 Fashion is something that will always be changing innovative and exciting Making your statement or impact on the fashion industry can be rewarding and profitable if you have the creativity to keep fashion new and exciting You can be a part of creating a new fashion trend by designing and creating your own fashionably exciting dress In dressmaking the biggest obstacle to over come is creating a dress that is perfect for you No two figures are exactly alike so by making your own clothing you have the advantage over shopping from the rack in knowing that the clothing you are wearing was made just for you and your body shape You achieve the perfect fit that is most flattering for you Dressmaking is not as hard as some make it out to be You can design a dress perfect for you by either studying already designed patterns and altering them to fit your body style or you can create your own dress from using what you know works for you Once you have a design in mind the rest is a breeze You can copy an already popular style on the market study fashion magazines with the latest fads or create a scrapbook of several different styles of dresses you love and incorporate different aspects of each into a design of your own creation However you come up with your dress design making it yourself will be the most rewarding thing you do when it comes to your fashion wardrobe *Resources in Education* ,1997
