Apple Store Cambridge Ma:

Apple in China Patrick McGee, 2025-05-13 THE NEW YORK TIMES BESTSELLER Absolutely riveting Peter Frankopan author of *The Silk Roads* Disturbing and enlightening Chris Miller author of *Chip War* Hugely important Rana Foroohar author of *Makers and Takers* A once in a generation read Robert D Kaplan author of *Waste Land* As Trump wages a tariff war with China seeking to boost domestic electronics manufacturing this book offers an unparalleled insight into why his strategy is embarrassingly naïve Apple isn't just a brand it's the world's most valuable company and creator of the 21st century's defining product The iPhone has revolutionized the way we live work and connect But Apple is now a victim of its own success caught in the middle of a new Cold War between two superpowers On the brink of bankruptcy in 1996 Apple adopted an outsourcing strategy By 2003 it was lured to China by the promise of affordable ubiquitous labour As the iPod and iPhone transformed Apple's fortunes their sophisticated production played a seminal role in financing training supervising and supplying Chinese manufacturers skills Beijing is now weaponizing against the West Investigative journalist Patrick McGee draws on 200 interviews with former Apple executives and engineers to reveal how Cupertino's choice to anchor its supply chain in China has increasingly made it vulnerable to the regime's whims Both an insider's historical account and a cautionary tale *Apple in China* is the first history of Apple to go beyond the biographies of its top executives and set the iPhone's global domination within an increasingly fraught geopolitical context

metainterface industry's disruption of everyday urban life changing how the city is read inhabited and organized the ways that the material displacement of the cloud affects the experience of the interface and the potential of designing with an awareness of the language and grammar of interfaces

Street Commerce Andres Sevtsuk, 2020-06-12 A comprehensive analysis of the issues involved in planning for and facilitating successful street commerce Street commerce has gained prominence in urban areas where demographic shifts such as increasing numbers of single people and childless empty nesters along with technological innovations enabling greater flexibility of work locations and hours have changed how people shop and dine out Contemporary city dwellers are demanding smaller scale stores located in public spaces that are accessible on foot or by public transit At the same time the emergence of online retail undermines both the dominance and viability of big box discount businesses and drives brick and mortar stores to focus as much on the experience of shopping as on the goods and services sold Meanwhile in many developing countries the bulk of urban retail activity continues to take place on the street even as new car oriented shopping centers are on the rise In light of such trends street commerce will play an important role in twenty first century cities particularly in producing far reaching benefits for the environment and local communities Although street commerce is deeply intertwined with myriad contemporary urban visions and planning goals walkability quality of life inclusion equity and economic resilience it has rarely been the focus of systematic research and informed practice In *Street Commerce* Andres Sevtsuk presents a comprehensive analysis of the issues involved in implementing successful street commerce Drawing on economic theory urban design principles regulatory policies and merchant organization models he conceptualizes key problems and offers innovative solutions He provides a range of examples from around the world to detail how different cities and communities have bolstered and reinvigorated their street commerce According to Sevtsuk successful street commerce can only be achieved when the private sector urban policy makers planners and the public are equipped with the relevant knowledge and tools to plan and regulate it
