Art Cuba The New Generation:

Misplaced Objects Silvia Spitta, 2009-07-01 When things move things change Starting from this deceptively simple premise Silvia Spitta opens a fascinating window onto the profound displacements and transformations that have occurred over the six centuries since material objects and human subjects began circulating between Europe and the Americas This extended reflection on the dynamics of misplacement starts with the European practice of collecting objects from the Americas into Wunderkammern literally cabinets of wonders Stripped of all identifying contexts these exuberant collections including the famous Real Gabinete de Historia Natural de Madrid upset European certainties forcing a reorganization of knowledge that gave rise to scientific inquiry and to the epistemological shift we call modernity In contrast cults such as that of the Virgin of Guadalupe arose out of the reverse migration from Europe to the Americas The ultimate marker of mestizo identity in Mexico the Virgin of Guadalupe is now fast crossing the U S Mexico border and miracles are increasingly being reported Misplaced Objects then concludes with the more intimate and familial collections and recollections of Cuban and Mexican American artists and writers that are contributing to the Latinization of the United States Beautifully illustrated and radically interdisciplinary Misplaced Objects clearly demonstrates that it is not the awed viewer but rather the misplaced object itself that unsettles our certainties allowing new meanings to emerge

Images of Thought Jorge J. E. Gracia, 2010-03-30 Is philosophy hopelessly opposed to art Images of Thought answers negatively claiming that visual images can be used effectively to grasp complex thoughts and philosophy can be deployed to deepen our understanding of art Jorge J E Gracia provides philosophical interpretations of seventeen works by the Cuban American artist Carlos Estévez that engage such topics as self knowledge the nature of the universe faith and reason permanence and change the self and the other women and men freedom and determinism providence and predestination The study's novelty lies both in its use of the interpretation of art to understand traditional philosophical problems and the theory it proposes concerning the nature of interpretation The clarity of the discussion and an engaging style make it accessible to a wider audience
