Andeweg,Galen A. Irwin,Tom Louwerse,2020-08-27 The new fifth edition of this leading textbook provides a clear and comprehensive account of governance and politics in the Netherlands The book has been revised throughout to provide full coverage of recent developments and events including the latest proposals for constitutional reform The Netherlands has often been characterized as a place of political calm with a culture of cooperation and compromise in dealing with key political issues Now at a time when climate change and

immigration are high on the political agenda the electorate is growing ever more unpredictable and political fragmentation makes forming majority coalitions increasingly difficult it is vital to question how the Dutch system will continue to achieve consensus With this in mind the authors take a comparative and analytical approach as they examine the features of the country's political system that have long made it a subject of study for political scientists Governance and Politics of the Netherlands provides both students and scholars with a complete and reliable introduction to a country whose small size belies its importance in comparative political analysis New to this Edition Fully revised and updated throughout to reflect the latest developments events and issues Cites the most recent data sources e.g national election study and parliamentary study Discusses latest proposals for constitutional reform The Politics of Structural Education Reform Keith A. Nitta, 2008-01-07 Education policymaking is traditionally seen as a domestic political process The job of deciding where students will be educated what they will be taught who will teach them and how it will be paid for clearly rests with some mix of district state and national policymakers This book seeks to show how global trends have produced similar changes to very different educational systems in the United States and Japan Despite different historical development social norms and institutional structures the U S and Japanese education systems have been restructured over the past dozen years not just incrementally but in ways that have transformed traditional power arrangements Based on 124 interviews this book examines two restructuring episodes in U S education and two restructuring episodes in Japanese education The four episodes reveal a similar politics of structural education reform that is driven by symbolic action and bureaucratic turf wars which has ultimately hindered educational improvement in both countries **As UK Government and Politics** Patrick Walsh-Atkins, 2010-09-01 Exam Revision Notes are the essential foundation for a successful revision programme The aim of AS UK Government Politics is to accelerate the learning process by providing systematic and concise coverage of the subject core allowing you time to develop the higher level skills of analysis and evaluation Written by an experienced examiner the notes are accompanied by short commentaries which highlight key points identify common pitfalls and offer guidance on underlying patterns The text has been fully updated to include the 2010 general election Examination style questions are also included for reinforcement and revision purposes This effective combination of essential notes and invaluable expert advice creates the ideal revision resource
