Nolan, 2001-04-10 In these times of dramatic social economic and political change governments around the world are questioning their roles and responsibilities in the public sector There is a trend away from traditional public sector model and that of market ideology but there does not yet exist a universally accepted alternative Brendan Nolan offers a comparative analysis of public administration in several OECD countries the UK USA Australia and Scandinavia and explores possible future directions *Institutions on the edge?* Michael Keating, 2020-07-25 Australia faces major challenges to its forms of governance Changing expectations from its citizens global pressures on the economy and technological innovation are impacting on government operations Yet most of its institutions were designed a hundred years

ago Cabinet government was inherited Parliament was already established in its forms and procedures The federal structure the High Court and the federal public service were created as a consequence The party structure has been effectively frozen since the 1920s and a tradition of handing some responsibilities to arms length organisations was well established So how have these institutions changed over the last hundred years and how well will they adapt to the demands of the modern world Do they have the capacity to adapt appropriately and enable governments to achieve their preferred outcomes In this book experienced academics and practitioners explore these questions They examine each of the institutions in terms of their ability to meet new challenges and provide some hope that Australia s institutions even if at times slow to move and dominated by internal interests have a capacity to adapt and govern effectively The book shows our political institutions in a new light as dynamic often flexible organisms it provides important new insights into the way we are governed and how our system of governance might develop in the future *Canadian Public-Sector Financial Management* Andrew

Graham,2014-10-01 It s not your money it belongs to the people Taking this simple axiom seriously creates unique challenges for the management of public funds Andrew Graham outlines all aspects of public sector financial management addressing how funds are obtained what rules of accountability and accounting are applied who controls public funds what constitutes effective budget management at the operational level and how accountability and oversight are dealt with The skills demanded of public sector managers in financial management are becoming increasingly onerous and complex *Canadian Public Sector Financial Management* will be of great help to practitioners in the public sector who wish to better understand their financial responsibilities as well as to students of public administration and the general reader concerned with public financial management issues The second edition of *Canadian Public Sector Financial Management* updates the widely used text reflecting on the developments in public financial management over the past six years Developments in financial reporting and the widespread need for governments to constrain growth and manage their finances more closely are looked at It remains focused on the practitioner and manager in the public sector **Public Sector Organizations and Cultural**
