Australias War On Terror Discourse:

Australia's 'war on terror' Discourse Kathleen Gleeson, 2016-04-08 Too often existing literature has conflated the discourses that enabled the War on Terror ignoring the contextual specificities of the states that make up the Coalition of the Willing Australia's war on terror Discourse fills this gap by providing a full and sustained critical analysis of Australian foreign policy discourse along with the theoretical synthesis for a specific model of critical discourse analysis of the subject The language of then Prime Minister Howard is the primary focus of the book but attention is also paid to the language of key ministers political opponents and other prominent actors The voices of those who challenged the dominant discourse are also considered to shed light on the ways in which discourses can be destabilised Kathleen Gleeson shows how Howard successfully invoked narratives of identity and sovereignty that resonated with his audience and promoted his reworked narrative of Australia whilst facing dissent from many actors who voiced their opposition most successfully when they capitalised on inconsistencies within the discourse

Australia's 'war on terror' Discourse Dr Kathleen Gleeson, 2014-07-28 Too often existing literature has conflated the discourses that enabled the War on Terror ignoring the contextual specificities of the states that make up the Coalition of the Willing Australia's war on terror Discourse fills this gap by providing a full and sustained critical analysis of Australian foreign policy discourse along with the theoretical synthesis for a specific model of critical discourse analysis of the subject

The Oldest Trick in the Book Ben M. Debney, 2020-07-03 This book investigates the normalisation of blame shifting within ideological discourse as a broad feature of history working from Churchill's truism that history is written by the victors To that end it explores historical episodes of political persecution carried out under cover of moral panic highlighting the process of Othering common to each and theorising a historical model of panic driven scapegoating from the results Building this model from case studies in witch panic communist panic and terrorist panic respectively The Oldest Trick in the Book builds an argument that features common to each case study reflect broader historical patterning consistent with Churchill's maxim On this basis it argues that the periodic construction of bogeymen or folk demons is a useful device for enabling the kind of victim playing and victim blaming critical to protecting elite privilege during periods of crisis and that in being a recurring theme historically panic driven scapegoating retains great ongoing value to the privileged and powerful and thus conspicuously remains an ongoing feature of world politics

Selling War and Peace Jack Holland, 2020-05-07 Holland analyses foreign policy debates in the Anglosphere US UK and Australia during the Syrian Civil War

Cultures of Counterterrorism Silvia D'Amato, 2019-02-21 This book investigates counterterrorism responses from a strategic culturalist perspective focusing on France and Italy in the post 9/11 era Terrorism occupies a predominant space within contemporary political debate across all European countries Recent attacks in Europe have raised many questions about the status of counterterrorism structures within European countries revealing a wide range of practical as well as discursive security implications This work provides

an original contribution to the understanding of counterterrorism by asking how values norms and a shared sense of identity matter in policy dynamics It explores and assesses which cultural elements are relevant for the fight against terrorism and investigates the impact which these elements can have on practical approaches to terrorism Despite the current attention to terrorist attacks in Europe the cases of France and Italy in counterterrorism affairs are particularly overlooked by the existing literature this book analyses questions and examines the strategy of these two countries through the instruments offered by the culturalist approaches to strategy This book will be of much interest to students of terrorism studies discourse analysis European politics security studies and international relations in general *International Law in Public Debate* Madelaine Chiam,2021-12-09 A history of international law in public debates and its resulting popular language of international law *Politics, Media and Campaign Language* Stephanie Brookes,2017-04-03 Politics Media and Campaign Language is an original groundbreaking analysis of the story of Australian identity told in Australian election campaign language Stephanie Brookes argues that the story of Australian identity is characterized by recurring cycles of anxiety and reassurance which betray a deep underlying feeling of insecurity Introducing the concept of identity security the book focuses on electoral language and demonstrates that election campaigns provide a valuable window into an overlooked part of Australia s political and cultural history Politics Media and Campaign Language reclaims Australian campaign speech and electoral history to tell the story of changing national values and priorities and traces the contours of collective conversations about national identity *Selling the War on Terror* Jack Holland,2013 Considers the principal members of Coalition of the Willing in Afghanistan Iraq the United States Britain Australia Despite significant cultural historical and political overlap the War on Terror was nevertheless rendered possible in these contexts in distinct ways drawing on different discourses narratives of foreign policy identity **Counter Terrorism and Social Cohesion** Alperhan Babacan,Hussein Tahiri,2011-08-08 This book critically examines Australia s counter terrorism measures by looking at the country s legislative framework within the context of an international law framework and norms relating to human rights It discusses the Australian governments justifications for the war on terrorism and sociological theories relating to risk society as a way to explain Australia s counter terrorism policies and the impact of the war on terror on social cohesion in Australia It looks at the adverse impacts of the war on terror on Muslims in Australia and their sense of belonging in a multicultural society and analyses these developments from a sociological perspective The book also explores the recent shift in the Australian governments approach to countering terrorism a shift from a coercive approach to tackling terrorism to a community engagement approach focused on building relationships and trust with Australia s diverse communities particularly the Muslim community *Living Through Terror* Suvendrini Perera,Antonio Traverso,2013-10-31 In the era of war on terror the term terror has tended to be applied to its sudden eruptions in the metropolises of the global north This volume directs its attention to terror s manifestations in other locations and lives The title Living Through Terror refers both to the

pervasiveness of terror in societies where extreme violence and war constitute the everyday processes of life as well as to the experience of surviving terror and living into the future The contributions consider terror s effects in those ignored and silenced locations where terror is either naturalised the Philippines South Africa Timor Leste Sri Lanka or made invisible the neo liberal democracies of Australia and Italy The stories of ruined places displaced bodies and identities shattered and remade that emerge from these pages bring into view the socio political systems cultural geographies and regimes of territoriality through which terror is engendered and naturalised and the institutions and imaginaries that continue to underpin them The essays literary writings and images collected here attend in their different ways to subjects living in and with terror as an element incorporated in their everyday and to the processes by which terror exercises itself in their lives whether it is perpetrated by state or non state actors Simultaneously the contributions attest to the tactics subjects deploy to confront and negotiate conditions of terror their attempts to live with and through terror and ultimately their strategies to recover through the everyday and the ordinary the seeds of life and hope
