Alice In Wonderland And Philosophy Curiouser And Curiouser

Jacqueline Furby, Claire Hines

Alice In Wonderland And Philosophy Curiouser And Curiouser:

Alice in Wonderland and Philosophy William Irwin, Richard Brian Davis, 2009-12-21 The perfect companion to Lewis Carroll's classic book and director Tim Burton's March 2010 remake of *Alice in Wonderland* Alice's Adventures in Wonderland has fascinated children and adults alike for generations Why does Lewis Carroll introduce us to such oddities as blue caterpillars who smoke hookahs cats whose grins remain after their heads have faded away and a White Queen who lives backwards and remembers forwards Is it all just nonsense Was Carroll under the influence This book probes the deeper underlying meaning in the Alice books and reveals a world rich with philosophical life lessons Tapping into some of the greatest philosophical minds that ever lived Aristotle Hume Hobbes and Nietzsche *Alice in Wonderland and Philosophy* explores life's ultimate questions through the eyes of perhaps the most endearing heroine in all of literature Looks at compelling issues such as perception and reality as well as how logic fares in a world of lunacy the Mad Hatter clocks and temporal passage Offers new insights into favorite *Alice in Wonderland* characters and scenes including the Mad Hatter and his tea party the violent Queen of Hearts and the grinning Cheshire Cat Accessible and entertaining *Alice in Wonderland and Philosophy* will enrich your experience of Alice's timeless adventures with new meaning and fun [Avatar and Philosophy](#) George A. Dunn, 2014-09-04 James Cameron's critically acclaimed movie *Avatar* was nominated for nine Academy Awards and received countless accolades for its breath-taking visuals and use of 3D technology But beyond its cinematic splendour can *Avatar* also offer us insights into business ethics empathy disability and the relationship between mind and body Can getting to know the Na'vi an alien species enlarge our vision and help us to see both our world and ourselves in new ways *Avatar and Philosophy* is a revealing journey through the world of Pandora and the huge range of philosophical themes raised by James Cameron's groundbreaking film Explores philosophical issues such as religion morality aesthetics empathy identity the relationship of mind and body environmental and business ethics technology and just war theory Examines a wide range of topics from the blockbuster movie including attitudes toward nature our responsibilities to nonhuman species colonialism disability and communitarian ethics Written by an esteemed group of philosophers who are avid fans of *Avatar* themselves Explains philosophical concepts in an enjoyable and accessible manner that will appeal to all levels of readers With a new trilogy of sequels now announced this is the ideal entry point for understanding the world of Pandora for fans and newcomers alike [Deleuze and Children](#) Bohlmann Markus P. J. Bohlmann, 2018-12-03 This collection applies the characterisations of children and childhood made in Deleuze and Guattari's work to concerns that have shaped our idea of the child Bringing together established and new voices the authors cover philosophy literature religious studies education sociology and film studies They consider aspects of children's lives such as time language gender affect religion atmosphere and schooling As a whole this book critically interrogates the pervasive interest in the teleology of upward growth of the child [Fantasy Literature](#) Mark A. Fabrizio, 2016-10-11 Fantasy literature often derided as superficial and escapist is one of the most popular

and enduring genres of fiction worldwide It is also perhaps surprisingly thought provoking structurally complex and relevant to contemporary society as the essays in this volume attest The scholars teachers and authors represented here offer their perspectives on this engaging genre Within these pages a reader will find a wealth of ideas to help teachers use these texts in the classroom challenging students to read fantasy with a critical eye They employ interdisciplinary philosophical and religious lenses as well as Marxist and feminist critical theory to help students unlock texts The books discussed include epic fantasy by such authors as Tolkien and Le Guin children s fantasy by Beatrix Potter and Saint Exup ry modern fantasy by Rowling and Martin and even fairy tales and comic books The contributors offer provocations questioning the texts and pushing the boundaries of meaning within the fantasy genre And in doing so they challenge readers themselves to ponder these tales more deeply But through each of these chapters runs a profound love of the genre and a respect for those who produce such beautiful and moving stories Furthermore as with all the books in this series this volume is informed by the tenets of critical pedagogy and is focused on re envisioning fantasy literature through the lens of social justice and empowerment Prepare to be challenged and inspired as you read these explorations of a much loved genre **Alice in**

Transmedia Wonderland Anna Kérchy, 2016-08-16 Part of Alice s appeal is her ambiguity which makes possible a range of interpretations in adapting Lewis Carroll s classic Wonderland stories to various media Popular re imaginings of Alice and her topsy turvy world reveal many ways of eliciting enchantment and shaping make believe Late 20th century and 21st century adaptations interact with the source texts and with each other providing readers with an elaborate fictional universe This book fully explores today s multi media journey to Wonderland *Alien and Philosophy* Jeffrey A. Ewing, Kevin S.

Decker, 2017-05-08 *Alien and Philosophy I Infest Therefore I Am* presents a philosophical exploration of the world of Alien the simultaneously horrifying and thought provoking sci fi horror masterpiece and the film franchise it spawned The first book dedicated to exploring the philosophy raised by one of the most successful and influential sci fi franchises of modern times Features contributions from an acclaimed team of scholars of philosophy and pop culture led by highly experienced volume editors Explores a huge range of topics that include the philosophy of fear Just Wars bio weaponry feminism and matriarchs perfect killers contagion violation employee rights and Artificial Intelligence Includes coverage of H R Giger s aesthetics the literary influences of H P Lovecraft sci fi and the legacy of Vietnam and much more *Knowledges Born in the Struggle*

Boaventura de Sousa Santos, Maria Meneses, 2019-10-17 In a world overwhelmingly unjust and seemingly deprived of alternatives this book claims that the alternatives can be found among us These alternatives are however discredited or made invisible by the dominant ways of knowing Rather than alternatives therefore we need an alternative way of thinking of alternatives Such an alternative way of thinking lies in the knowledges born in the struggles against capitalism colonialism and patriarchy the three main forms of modern domination In their immense diversity such ways of knowing constitute the Global South as an epistemic subject The epistemologies of the South are guided by the idea that another world is possible

and urgently needed they emerge both in the geographical north and in the geographical south whenever collectives of people fight against modern domination Learning from and with the epistemic South suggests that the alternative to a general theory is the promotion of an ecology of knowledges based on intercultural and interpolitical translation Fantasy Jacqueline Furby, Claire Hines, 2011-09-02 This book considers fantasy film and its relationship to myth legend and fairytale examining its important role in contemporary culture It provides an historical overview of the genre and its evolution contextualising each fantasy film within its socio cultural period and with reference to relevant critical theory **Lennon and McCartney** Thomas MacFarlane, 2022-09-30 Lennon and McCartney Painting with Sound explores the work of two of the most influential composers of the twentieth century Five decades after the breakup of the Beatles the music of John Lennon and Paul McCartney continues to fascinate and inspire Evidence suggests that their uniquely eclectic approach can be traced back to the Liverpool College of Art Following on that idea this book explores the creative dialogue between John Lennon and Paul McCartney both with the Beatles and on their own that grew out of that early influence The book is presented in three sections I Stretching the Canvas considers the Liverpool College of Art as the backdrop for John and Paul s early collaborations with painter and musician Stuart Sutcliffe This is followed by discussions of select works created by the Beatles between 1962 69 II Extending the Space focuses on the long distance creative dialogue between Lennon and McCartney as demonstrated in their respective solo recordings of the 1970s III New Colours considers the final works of the Lennon and McCartney creative dialogue as well as various McCartney solo projects released in the years that followed Lennon s death in 1980 Here the focus is on Paul s development as a painter its effect on his creativity and his subsequent efforts to establish the Liverpool Institute for Performing Arts as a world class arts conservatory Reading the Child in Children's Literature David Rudd, 2017-09-16 An essential text that provides students with a dynamic sophisticated and controversial look at the critical representation of the child in children s literature arguing for a more open and eclectic approach one that celebrates the diverse power appeal and possibilities of children s literature Drawing on psychoanalytically informed perspectives David Rudd shows students how theory can be both exciting and liberating This is a thought provoking supplementary text for modules on Children s literature or literary theory which may be offered at the upper levels of an undergraduate literature degree In addition it is a stimulating resource for advanced students who may be studying children s literature or literary theory as part of a taught postgraduate degree in literature
