Hubert Dreyfus, Sean Dorrance Kelly

All Things Shining All Things Shining:

All Things Shining Hubert Dreyfus, Sean Dorrance Kelly, 2011-08-09 A wide ranging look at the loss of meaning in the West and a gripping guide for how to retrieve it **Unit Operations** Ian Bogost, 2008-01-25 In *Unit Operations* Ian Bogost argues that similar principles underlie both literary theory and computation proposing a literary technical theory that can be used to analyze particular videogames Moreover this approach can be applied beyond videogames Bogost suggests that any medium from videogames to poetry literature cinema or art can be read as a configurative system of discrete interlocking units of meaning and he illustrates this method of analysis with examples from all these fields The marriage of literary theory and information technology he argues will help humanists take technology more seriously and help technologists better understand software and videogames as cultural artifacts This approach is especially useful for the comparative analysis of digital and nondigital artifacts and allows scholars from other fields who are interested in studying videogames to avoid the esoteric isolation of game studies The richness of Bogost's comparative approach can be seen in his discussions of works by such philosophers and theorists as Plato Badiou Žižek and McLuhan and in his analysis of numerous videogames including Pong Half Life and Star Wars Galaxies Bogost draws on object technology and complex adaptive systems theory for his method of unit analysis underscoring the configurative aspects of a wide variety of human processes His extended analysis of freedom in large virtual spaces examines Grand Theft Auto 3 The Legend of Zelda Flaubert's *Madame Bovary* and Joyce's *Ulysses* In *Unit Operations* Bogost not only offers a new methodology for videogame criticism but argues for the possibility of real collaboration between the humanities and information technology **Flesh of My Flesh** Kaja Silverman, 2009-10-28 What is a woman What is a man How do they and how should they relate to each other Does our yearning for wholeness refer to something real and if there is a Whole what is it and why do we feel so estranged from it For centuries now art and literature have increasingly valorized uniqueness and self sufficiency The theoreticians who loom so large within contemporary thought also privilege difference over similarity Silverman reminds us that this is but half the story and a dangerous half at that for if we are all individuals we are doomed to be rivals and enemies A much older story one that prevailed through the early modern era held that likeness or resemblance was what organized the universe and that everything emerges out of the same flesh Silverman shows that analogy so discredited by much of twentieth century thought offers a much more promising view of human relations In the West the emblematic story of turning away is that of Orpheus and Eurydice and the heroes of Silverman's sweeping new reading of nineteenth and twentieth century culture the modern heirs to the old analogical view of the world also gravitate to this myth They embrace the correspondences that bind Orpheus to Eurydice and acknowledge their kinship with others past and present The first half of this book assembles a cast of characters not usually brought together Friedrich Nietzsche Sigmund Freud Marcel Proust Lou André as Salomé Romain Rolland Rainer Maria Rilke Wilhelm Jensen and Paula Modersohn-Becker The second half is devoted to three contemporary

artists whose works we see in a moving new light Terrence Malick James Coleman and Gerhard Richter **Goodness and Tradition** Irene Liu, 2025-10-28 This book investigates the importance of spirituality in moral life The author claims that modern secular morality suffers from a lack of spirituality and argues that a solution to this problem can be found in tradition Over several centuries a process of secularization has loosened both the hold and the appeal of religion in the West Morality did not dissipate as many feared it would This book is motivated by the idea that nevertheless something important was lost along the way Arguing that a lack of spirituality has weakened secular moral life the author seeks to identify an alternative source of spirituality that is not divine or supernatural To this end she considers three perspectives that offer potential sources of secular spirituality Aristotelian humanism which emphasizes nature existentialist humanism which emphasizes freedom and choice and Confucian humanism which emphasizes rituals The author ultimately defends the view that traditions are intrinsically good as creations that elevate human nature through their customs practices and institutions Further she argues that the initiation into tradition is necessary to bring a person into the space of reasons which encompasses both moral and non moral values In consequence traditions are appropriate objects of existential gratitude which some theists hold to be the foundation of religious experience Thus it is possible to infuse secular moral life with spirituality by reawakening a love for the traditions in which it is already embedded Goodness and Tradition will appeal to scholars and graduate students in ethics metaethics and moral psychology who are interested in questions of moral motivation and experience It will also appeal to those who are interested in the role of religion in moral life as well as philosophers who are interested in comparative approaches to Western and Chinese thought **Finding Meaning** Steven DeLay, 2023-10-13 The word nihilism today is everywhere A staple of common speech ever since its coinage by Friedrich Heinrich Jacobi in the eighteenth century is there any other term of philosophical provenance more descriptive of our times Finding Meaning Essays on Philosophy Nihilism and the Death of God deepens the longstanding and ongoing debate about the problem of nihilism Drawing upon a wide range of philosophical and theological schools traditions and figures the eleven specially commissioned essays by international scholars enrich the discussion of how to meet the challenge of nihilism Fundamental problems and topics include the existence of God the origins and status of morality the nature and meaning of history the relation between reason and faith the status and role of philosophical knowledge the place of art and religion in society the future of modernity the nature of postmodernity the perils of technology the specter of transhumanism and the history of philosophy from Augustine to Kant and Hegel Nietzsche to Kierkegaard and Dostoevsky and Heidegger to Sartre and Camus Based on a popular series of online essays published at London artist and philosopher Richard Marshall's 3 16 AM Finding Meaning is essential reading for students and scholars of philosophy and theology and for anyone with a genuine interest in making sense of what it means to be human in an age of nihilism [Paths in Heidegger's Later Thought](#) Günter Figal, Diego D'Angelo, Tobias Keiling, Guang Yang, 2020-03-10 If one takes Heidegger at his word then his philosophy is about

pursuing different paths of thought rather than defining a single set of truths This volume gathers the work of an international group of scholars to present a range of ways in which Heidegger can be read and a diversity of styles in which his thought can be continued Despite their many approaches to Heidegger their hermeneutic orientation brings these scholars together The essays span themes from the ontic to the ontological from the specific to the speculative While the volume does not aim to present a comprehensive interpretation of Heidegger's later thought it covers much of the terrain of his later thinking and presents new directions for how Heidegger should and should not be read today Scholars of Heidegger's later thought will find rich and original readings that expand considerations of Heidegger's entire oeuvre

The Magic Hours John Bleasdale, 2024-12-03 Terrence Malick is the most enigmatic film director currently working Since the early seventies his work has won top prizes at film festivals worldwide and brought him wide recognition as the cinematic equivalent of a poet His life is shrouded in mystery leaving audiences with rumors few established facts and virtual silence from the filmmaker himself following his last published interview in 1979 This has done nothing to dim the luminous quality of his films from *Badlands* 1973 and *Days of Heaven* 1978 to later works such as *The Thin Red Line* 1998 *The Tree of Life* 2011 and *A Hidden Life* 2019 *The Magic Hours: The Films and Hidden Life of Terrence Malick* is the first true biography of this visionary filmmaker Through interviews and in depth research John Bleasdale reveals the autobiographical grounding of many of Malick's greatest films as well as the development of an experimental form of filmmaking that constantly expands the language of cinema It is the essential account for anyone wishing to understand Malick and his work
