modulation of spatio temporal intelligibility is partly shaped by the commercial logics of the industries that design and manufacture smart objects but can also exceed them Drawing upon the work of Martin Heidegger Gilbert Simondon and Bruno Latour Ash argues that smart objects have their own phase politics which offer opportunities for new forms of public to emerge Phase Media develops a conceptual vocabulary to contend that smart objects do more than just enabling a world of increased corporate control and surveillance as they also provide the tools to expose and re order the very logics and procedures that created them **My iPad (covers iOS 7 on iPad Air, iPad 3rd/4th generation, iPad2, and iPad mini)**
