Marvelous Faith Raymond K. Shin, 2022-07-29 A Roman centurion asks Jesus to heal his dying servant Jesus agrees to help and begins making his way to the centurion's home but the centurion tells him not to bother making the trip He says that it would be enough for Jesus just to say the word for the servant to be healed The Bible then says that Jesus marveled at the centurion's faith How could Jesus whom Christians believe to be God incarnate who knows all things be amazed by anything a human does There must be something special about faith to cause Jesus to be amazed Christians are called to possess the same kind of faith as the centurion It may not seem possible but if we want it God helps us obtain and maintain the kind of faith that can amaze even God himself And once we have that amazing faith it will lead us to share joy hope and love with others around us

Rethinking the Curriculum Orlando Nang Kwok Ho, 2018-12-13 This book is an interdisciplinary endeavour Encompassing education and basic research it discusses the modular curriculum embodied in The Epistle from educational historical sociolinguistic anthropological phenomenological and non sectarian perspectives It shows the cross boundary philosophical reasoning and pedagogic dimensions of St Paul as a great teacher and thinker from the Jewish and Christian faith In doing so this book refocuses academia's attention on the inevitable antimonic nature inherent in humans efforts to create systemic knowledge Knowledge about the inner aesthetic and volitional interpretative self the immanent psychic I and other philosophical aspects of the realm of the transcendental should be rescued from the deepening trends of secularity Being strong powerful productive and performative should not be taken as the indisputable and exclusive aim of education Science Technology Engineering and Mathematics STEM do not constitute a sufficient basis for building a better humanity Education via public curriculums ought to serve both the belly and the mind Deliberative curricular recalibrations with rationales for grace are thus needed for a better future for humanity This book is relevant for anyone with a core fascination about truths values epistemologies life spirituality and holistic human development It can also be used as a textbook or a reference in a number of fields including counselling psychology translation cultural studies and theology

Faith and Media Hans Geybels, Sara Mels, Michel Walrave, 2009 In the past ideologies and religions had a real impact on the media In the current era of mass media and communication strategies perception takes priority over identity and new questions arise how to introduce faith and religion in a pluralising and detraditionalising world What possibilities are offered by the new media How can technical innovations be incorporated in church communication Following the conference Belief in the Media April 2007 this publication focuses on the gap between the language of faith and the language of the general

media The different contributors analyse from within but also from outside a church context the historical changes and challenges the Catholic Church and other faiths and denominations face with regard to their social communication and media strategies However it is not only the relationship of religious institutions with the media that is at stake but also the way in which the media cover topics such as the Middle East Muslim immigrant populations in Europe and the World Youth Day Journalists have to find new ways to get a grip on these issues too **The Pious Christian's Faith and Hope** John
