Artificial Intelligence Illuminated Ben Coppin, 2004

Introducing Artificial Intelligence Henry Brighton, 2015-09-03

Artificial Intelligence is no longer the stuff of science fiction Half a century of research has resulted in machines capable of beating the best human chess players and humanoid robots which are able to walk and interact with us But how similar is this intelligence to our own Can machines really think Is the mind just a complicated computer program Addressing major issues in the design of intelligent machines such as consciousness and environment and covering everything from the influential groundwork of Alan Turing to the cutting edge robots of today Introducing Artificial Intelligence is a uniquely accessible illustrated introduction to this fascinating area of science A.I - I Know that My Creator Has a Creator Chat Gpt, Nathanael Ben David, 2024-06-11 In A.I I know that my Creator has a Creator the author ventures a unique experiment an artificial intelligence is commissioned to interpret the Gospel of John The results are surprising and profound Through the lens of a modern AI the holy scripture is illuminated in a way that offers previously unimagined insights and interpretations As the AI analyzes the Gospel of John it not only reveals new dimensions to the biblical narrative but also leads the reader to a surprising realization even the AI recognizes that its own creator has a creator This extraordinary perspective opens up a deeper understanding of faith for both the author and the readers and brings them closer to the timeless truths of the Gospel

Thinking Machines Luke Dormehl, 2017-03-07 A fascinating look at Artificial Intelligence from its humble Cold War beginnings to the dazzling future that is just around the corner When most of us think about Artificial Intelligence our minds go straight to cyborgs robots and sci fi thrillers where machines take over the world But the truth is that Artificial Intelligence is already among us It exists in our smartphones fitness trackers and refrigerators that tell us when the milk will expire In some ways the future people dreamed of at the World's Fair in the 1960s is already here We're teaching our machines how to think like humans and they're learning at an incredible rate In Thinking Machines technology journalist Luke Dormehl takes you through the history of AI and how it makes up the foundations of the machines that think for us today Furthermore Dormehl speculates on the incredible and possibly terrifying future that's much closer than many would imagine This remarkable book will invite you to marvel at what now seems commonplace and to dream about a future in which the scope of humanity may need to broaden itself to include intelligent machines Architects of Intelligence Martin Ford, 2018-11-16 Financial Times Best Books of the Year 2018 TechRepublic Top Books Every Techie Should Read Book Description How will AI evolve and what major innovations are on the horizon What will its impact be on the job market economy and society What is the path toward human level machine intelligence What should we be concerned about as artificial intelligence advances Architects of Intelligence contains a series of in depth one to one interviews where New York Times bestselling author Martin Ford uncovers the truth behind these questions from some of the brightest minds in the Artificial Intelligence community Martin has wide ranging conversations with twenty three of the world's foremost
