Australia A Biography Of A Nation:

Australia Phillip Knightley, 2000 Part history part travelogue part memoir this is the inspiring story of how a one time British colony settled by only two kinds of citizens convicts and jailers turned itself into a proud prosperous and confident country the greatest sporting nation on earth where the citizens of its high leisure cities enjoy a lifestyle that is the envy of the world Through the eyes of ordinary people struggling with their passions hopes dreams and ambitions Phillip Knightley describes the journey that has taken the Great South land from a dark racist and often murderous past to a working multi cultural society The shocking treatment of the Aborigines the determination of Australians to make a clean break from the ills of the Old World and create a new society where everyone had a fair go the love hate relationship with Britain that led to the slow but traumatic detachment from the Mother Country drive this sweeping story of a people whose discovery of the middle way could serve as a guide for our future

Power Of Speech James Curran, 2014-07-18 The subjects of this book are five fascinating prime ministers Gough Whitlam Malcolm Fraser Bob Hawke Paul Keating and John Howard and how they view Australia Until the 1960s our nation believed itself to be British Then during a decade of momentous change this concept of our national identity collapsed It was buried by the forces of cultural and political renewal by disturbing and exciting developments in Asia and by a dawning recognition that the global era of colonial power was over The result was a crisis of national meaning reflected in public debates about multiculturalism Australia's relationships with its Asian neighbours the dispossession of indigenous Australians and the nation's involvement in war In recent years our political leaders have played a conspicuous role in the controversy In *The Power of Speech* James Curran explores the end of the idea of British Australia and how successive prime ministers have attempted to assert personal and often competing visions of Australian nationalism in its place This highly original study of prime ministerial rhetoric exposes the sources of our most powerful leaders' beliefs about Australia
