An Insignificant Life:

On Insignificance Massimo Leone, 2019-10-28 Focusing on the anthropological consequences of the disappearing of materiality and sensory embodiment *On Insignificance* highlights some of the most perturbing patterns of insignificance that have seeped into our everyday lives Seeking to explain the semiotic causes of feelings of meaninglessness Leone posits that caring for the singularities of the world is the most viable way to resist the alienating effects of the digital bureaucratization of meaning The book will be of interest to scholars of anthropology cultural studies semiotics aesthetics communication studies and social theory The Father-Daughter Plot Rebecca L. Copeland, Esperanza Ramirez-Christensen, 2001-07-31

This provocative collection of essays is a comprehensive study of the father daughter dynamic in Japanese female literary experience Its contributors examine the ways in which women have been placed politically ideologically and symbolically as daughters in a culture that venerates the father They weigh the impact that this daughterly position has had on both the performance and production of women's writing from the classical period to the present Conjoining the classical and the modern with a unified theme reveals an important continuum in female authorship a historical approach often ignored by scholars The essays devoted to the literature of the classical period discuss canonical texts in a new light offering important feminist readings that challenge existing scholarship while those dedicated to modern writers introduce readers to little known texts with translations and readings that are engaging and original Contributors Tomoko Aoyama Sonja Arntzen Janice Brown Rebecca L Copeland Midori McKeon Eileen Mikals Adachi Joshua S Mostow Sharalyn Orbaugh Esperanza Ramirez Christensen Edith Sarra Atsuko Sasaki Ann Sherif The Sunday of the Negative Christopher M. Gemberchak, 2012-02-01 Although often considered an esoteric figure occupying the dark fringes of twentieth century thought Georges Bataille was a pivotal precursor to a generation of poststructuralist and postmodern thinkers including Baudrillard Derrida Foucault Lacan and Lyotard *The Sunday of the Negative* provides the most extensive English language investigation of Bataille's critical treatment of the thought of Hegel focusing on the notions of subjectivity desire self consciousness knowledge and the experience of the divine The book spans all of Bataille's writings patiently navigating even the most obscure texts The author explains how Bataille's notion of self consciousness both derives from and is an alternative to that of Hegel Disclosing the origins of Bataille's most influential concepts the book moves across philosophy proper to include reflections on anthropology economics cultural criticism poetry eroticism mysticism and religion The Thorn in the Chrysanthemum Mamoru Iga, 2024-06-14 Japanese society is frequently held up to the Western world as a model of harmony and efficiency but the price it pays tends to be overlooked In a searching analysis that will fascinate students and admirers of Japan as much as it will inform psychologists and suicidologists Mamoru Iga discusses the precise nature of the thorn in the chrysanthemum a thorn that may hurt both the Japanese and the outsider who conducts business with them The author who was reared and educated in Japan is uniquely qualified to interpret the value orientations of a society in which suicide is all

too common He finds that the traits leading to homogeneity and extreme adaptability in that society as a whole are the very traits that can produce painful reactions in the individual Those traits are described as monism groupism authoritarianism familism and accommodationism and together they comprise the Japanese social character Because the individual s behavior is based on the images assumptions and ideas about the world that make up his or her culture conformism in the individual is one major manifestation of Japan s social character In Japan the need to fill one s socially prescribed role may make it doubly difficult to think independently and creatively and to find solutions for the resulting stress Suicide notes and other personal documents reveal the painful cost of modern Japan s success story as the examination of individual suicides is related both to the theoretical framework of Durkheim s types of suicide and to the sociological patterns that characterize suicide in Japan It is in personal value orientations however that Iga finds the common ground between suicide and economic success American readers will find especially interesting the contrast between value orientations in Japan and in the United States Nearly the opposite of the Japanese traits described above American values of rationalism individualism competition and change create their own problems There is much to be learned from this expert analysis of the problem of suicide in Japan This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1986

Endurance Sport and the American Philosophical Tradition Douglas Hochstetler,2020-01-15 *Endurance Sport and the American Philosophical Tradition* edited by Douglas R Hochstetler analyzes the relationship between endurance sports such as running cycling and swimming and themes from the American philosophical tradition The contributors enter into dialogue with writers such as Ralph Waldo Emerson William James Henry David Thoreau and John Dewey as well as more recent scholars such as John McDermott and bell hooks Examining American philosophical themes informs issues in endurance sport and the experiential nature of endurance sport helps address philosophical issues and explain philosophical themes in American philosophy The chapters bear witness to the fact that philosophy is not limited to abstract notions such as justice truth happiness and so forth but intersects with and has a bearing on our human endeavors of work and play Furthermore the themes centrally related to the American philosophical tradition align closely with the challenges and experiences present and faced by runners cyclists swimmers and endurance athletes in general

Self-portrait In Hospital As Camus SK Rancy,2023-04-09 Mediating on the absurd the existential and the sincere the poems in *Self portrait In Hospital As Camus* struggle with the futility of scientific and philosophical tenets of objectivity as framed by human suffering within the hospital s walls In vacillating between praising the wonder of human anatomy and scientific discovery while decrying the senselessness of man s achievements and ambitions in the face of a meaningless and finite existence this collection reaches its crescendo in the only reasonable apotheosis if nothing matters everything must

Life's Curious

A Message for the Soul of Man John D. Powers, 2010-07 One of the most unanswered questions in the world today is why? Why did God create this universe and everything in it? Why did God create the angels and every soul? Why does God want each soul to join him in heaven? In *A Message for the Soul of Man*, author John D. Powers answers these and other questions relating to our souls, our creation, and our life's purpose. After receiving a message from God many years ago, Powers researched Bible scripture to validate this important communication. Now Powers shares the full message he received and the implications it carries for the souls of mankind. God wants a personal relationship with us, and he wants every soul to be saved. Through thought-provoking discussion and testimony, *A Message for the Soul of Man* refreshes our knowledge about God, ourselves, and the world; it helps assess where we are in relation to the world and its development. Powers describes how we are called to examine ourselves, learn about our soul, and discover our purpose in life. We have the power and the choice to determine what will happen to our immortal soul after death. This title received a Finalist Award in the 2011 International Book Awards.
