An Imaginary Life:

An Imaginary Life David Malouf, 1978 In the first century A D Publius Ovidius Naso the most urbane and irreverent poet of imperial Rome was banished to a remote village on the edge of the Black Sea From these sparse facts Malouf has fashioned an audacious and supremely moving novel Marooned on the edge of the known world exiled from his native tongue Ovid depends on the kindness of barbarians who impale their dead and converse with the spirit world Then he becomes the guardian of a still more savage creature a feral child who has grown up among deer What ensues is a luminous encounter between civilization and nature as enacted by a poet who once cataloged the treacheries of love and a boy who slowly learns how to give it A work of unusual intelligence and imagination full of surprising images and insights One of those rare books you end up underlining and copying out into notebooks and reading out loud to friends The New York Times Book Review Copyright Libri GmbH All rights reserved

On Post-Colonial Futures Bill Ashcroft, 2001-09-01 In this groundbreaking work Bill Ashcroft extends the arguments posed in *The Empire Writes Back* to investigate the transformative effects of postcolonial resistance and the continuing relevance of colonial struggle He demonstrates the remarkable capacity for change and adaptation emanating from postcolonial cultures both in everyday life and in the intellectual spheres of literature history and philosophy The transformations of postcolonial literary study have not been limited to a simple rewriting of the canon but have also affected the ways in which all literature can be read and have led to a more profound understanding of the network of cultural practices that influence creative writing

Persephone Unbound Catherine Perry, 2003 Best understood in terms of a Dionysian aesthetics her work is sensual erotic and playful but also reflective violent on occasion and always marked by a tragic under current that becomes magnified with time Beyond the prominent place she held in the world of French letters Noailles' lifelong commitment to artistic creation invites a reconsideration of her work

BOOK JACKET **Sartre's Existential Psychoanalysis** Mary Edwards, 2022-10-20 Western philosophical orthodoxy places many aspects of other people's lives outside the scope of our knowledge Demonstrating an alternative to this view however this book argues that Jean Paul Sartre's application of his unique psychoanalytic method to Gustave Flaubert is the culmination of his project to show that it is

possible to know everything there is to know about another person It examines how Sartre aims to revolutionize our way of thinking about others by presenting his existential psychoanalysis as the means to knowledge of both ourselves and others By so doing it highlights how his determination to solve the longstanding philosophical conundrum about other minds drives him not only to incorporate insights from Descartes Hegel Husserl Freud Marx and Beauvoir into his philosophy but also to supplement and enhance his philosophy through the development and application of a new form of psychoanalysis Sartre s Existential Psychoanalysis integrates for the first time Sartre s psychoanalysis into his overarching philosophical project By offering a critical interrogation of the role his psychoanalytical studies played in the development of his existentialism Mary Edwards uncovers the overlooked philosophical significance of his existential psychoanalysis and brings it into a new and productive dialogue with current research in the fields of philosophy psychology and psychotherapy *A Global Life* James D. Wolfensohn,2010-10-12 As president of the World Bank for a decade James Wolfensohn tackled world poverty with a passion and energy that made him a uniquely important figure in a fundamental arena of change Using a lifetime of experience in the banking sector he carved a distinct path in Asia Africa Latin America and Europe for the institution that serves as the major lender to the world s poor In *A Global Life* Wolfensohn tells his astonishing life story in his own words A man of surpassing imagination and drive he became an Olympic fencer and a prominent banker in London and New York An Australian he navigated Wall Street with uncommon skill Chairman of Carnegie Hall and the Kennedy Center for many years he is also an amateur cellist But it was his tenure at the World Bank that made him an international force While at the helm of this controversial institution Wolfensohn motivated schemed charmed and bullied all the constituencies at his command to broaden the distribution of the world s wealth Now he bluntly assesses his successes and failures reflecting on the causes of continuing poverty Much more than a business story this is a deeply reflective account of a fascinating career and personality

My confession; My religion; The Gospel in brief graf Leo Tolstoy,1899 *Sartre and the Phenomenology of Education* Cameron Bassiri,2023-11-02 Through an engagement with texts that span the entirety of Sartre s career Sartre and the Phenomenology of Education Education for Resistance provides phenomenological analyses of two primary orientations toward education Cameron Bassiri develops a Sartrean approach to education calling it committed education and argues that such education is ultimately a form of resistance to need scarcity the practico inert and their cultural manifestations Bassiri argues that a genuine liberating form of education cultivates the imagination instills the appropriate orientation to time in students and ultimately produces a culture of collective imagining He then develops its complementary opposite institutionalized education which is a form of passive acceptance assimilation and oppression Oppressive approaches to education cultivate perception while repressing or instrumentalizing the imagination impose an understanding of time on students and ultimately produce a culture of perception and restricted serialized imagining Through these analyses Bassiri demonstrates the importance of education for the formation of subjectivity highlighting the role that

existential psychoanalysis plays in teaching as well as two distinct forms of the phenomenological reduction operative in the respective orientations toward education Understanding Karmic Complexes Patricia l Walsh, 2009-09-01 While studying Evolutionary Astrology with Jeff Green regression therapist Patricia Walsh realised that the potent combination of the two disciplines could help to resolve current issues which have their roots in past life experiences The types of issues that arise in past life regressions to be healed are also the exact dynamics that Evolutionary Astrology aims to describe
