Annual Report 2004 05 And Autumn Performance Report 2005 Hm Revenue And Customs:

H. M. Revenue and Customs Departmental Autumn Performance Report 2009 Great Britain. HM Revenue & Customs, 2009 HMRC is the UK's tax administration responsible for administering income tax corporation tax VAT National Insurance contributions excise duties environmental taxes insurance premium tax capital gains tax petroleum revenue tax and stamp duty It is also responsible for the payment of tax credits child benefit and child trust fund endowments Some of the achievements recorded for the first part of 2009 10 include collection of over 209 billion in revenue delivery of the biggest change to PAYE system in 20 years with the launch of the new PAYE Service and Work Management System MPPC delivery of the largest learning intervention in the UK this year with that new service delivered 14 full or partial vacations of HMRC locations resulting in savings of 6.8 million achieving platinum status in the Business in the Community Corporate Responsibility Index and the launching of the Health in Pregnancy Grant Departmental report 2007 H.M. Revenue & Customs Great Britain: H.M. Revenue & Customs, 2007-05-25 Dated May 2007 On cover Integrating and growing stronger Spring 2007 **The Administration of Tax Credits** Great Britain: Parliament: House of Commons: Treasury Committee, 2006-06-06 The new tax credits the child tax credit and the working tax credit were introduced in April 2003 Government statistics indicate that 6 million families and 10 million children benefit from the receipt of these credits In 2003 04 period about one third of all tax credits awards 1.9 million were overpaid at a cost of nearly 2 billion This report by the Treasury Committee examines the reasons for the high level of overpayments The Committee acknowledges recent research which suggests that the tax credits regime is designed to deliver the correct amount of state assistance over the year as a whole rather than over a shorter period and that payments should perhaps be aligned more with the financial needs of families who budget over shorter periods The Committee states that HM Revenue and Customs HMRC need to develop a detailed understanding of the factors that have led to overpayment such as how much official errors and IT system errors have caused or contributed to overpayments The report also considers the incidence of fraud error on the part of claimants and organised crime The Committee also feels that the administration of the tax credits regime has been based around individual functions or tasks rather than centred around the needs of the claimants and that the HMRC needs to institute a claimant centred approach to the administration of tax credits *Integration of Revenue Administration* World Bank, 2010-09-21 In order to minimize the need for taxpayers to respond to multiple revenue agencies some countries have integrated their revenue administrations either by merging tax and customs administration or unifying collection of tax and social contributions This book examines the experience of 11 countries in doing so Their experiences indicate that integrating collection entails modernizing the revenue administration and reducing contact between the tax office and taxpayers thanks to the extensive use of ICT **The 2005 Pre-budget Report** Great Britain: Parliament: House of Commons: Treasury Committee, 2006-01-25 The Committee's report examines the Government's Pre Budget Report 2005 Cm

6701 ISBN 0101670125 published in December 2005 Issues discussed include the state of the economy including the UK Presidency of the G8 UK economic growth estimates for 2006 and beyond and consumer spending and public finance matters as well as issues relating to taxation and pensions Recommendations made include that the Treasury should give at least four weeks notice of the date of the Pre Budget Report in order to enable sufficient parliamentary scrutiny and if this target is not met the Treasury should give an account of the reasons why **A Government that Worked Better and Cost Less?**

Christopher Hood,Ruth Dixon,2015-04-02 The UK is said to have been one of the most prolific reformers of its public administration Successive reforms have been accompanied by claims that the changes would make the world a better place by transforming the way government worked Despite much discussion and debate over government makeovers and reforms however there has been remarkably little systematic evaluation of what happened to cost and performance in UK government during the last thirty years A Government that Worked Better and Cost Less aims to address that gap offering a unique evaluation of UK government modernization programmes from 1980 to the present day The book provides a distinctive framework for evaluating long term performance in government bringing together the working better and costing less dimensions and presents detailed primary evidence within that framework This book explores the implications of their findings for widely held ideas about public management the questions they present and their policy implications for a period in which pressures to make government work better and cost less are unlikely to go away **Crossing Boundaries in**

Public Management and Policy Janine O'Flynn,Deborah Blackman,John Halligan,2013-07-24 In the 21st century governments are increasingly focusing on designing ways and means of connecting across boundaries to achieve goals Whether issues are complex and challenging climate change international terrorism intergenerational poverty or more straightforward provision of a single point of entry to government or delivering integrated public services practitioners and scholars increasingly advocate the use of approaches which require connections across various boundaries be they organizational jurisdictional or sectorial Governments around the world continue to experiment with various approaches but still confront barriers leading to a general view that there is considerable promise in cross boundary working but that this is often unfulfilled This book explores a variety of topics in order to create a rich survey of the international experience of cross boundary working The book asks fundamental questions such as What do we mean by the notion of crossing boundaries Why has this emerged What does cross boundary working involve What are the critical enablers and barriers By scrutinizing these questions the contributing authors examine the promise the barriers the enablers the enduring tensions and the potential solutions to cross boundary working As such this will be an essential read for all those involved with public administration management and policy **Disease Prevention as Social Change**

Constance A. Nathanson,2007-04-02 From mad cow disease and E coli tainted spinach in the food supply to anthrax scares and fears of a bird flu pandemic national health threats are a perennial fact of American life Yet not all crises receive the level of attention they seem to merit The marked

contrast between the U S government s rapid response to the anthrax outbreak of 2001 and years of federal inaction on the spread of AIDS among gay men and intravenous drug users underscores the influence of politics and public attitudes in shaping the nation s response to health threats In *Disease Prevention as Social Change* sociologist Constance Nathanson argues that public health is inherently political and explores the social struggles behind public health interventions by the governments of four industrialized democracies Nathanson shows how public health policies emerge out of battles over power and ideology in which social reformers clash with powerful interests from dairy farmers to tobacco lobbyists to the Catholic Church Comparing the history of four public health dilemmas tuberculosis and infant mortality at the turn of the last century and more recently smoking and AIDS in the United States France Britain and Canada Nathanson examines the cultural and institutional factors that shaped reform movements and led each government to respond differently to the same health challenges She finds that concentrated political power is no guarantee of government intervention in the public health domain France an archetypical strong state has consistently been decades behind other industrialized countries in implementing public health measures in part because political centralization has afforded little opportunity for the development of grassroots health reform movements In contrast less government centralization in America has led to unusually active citizen based social movements that campaigned effectively to reduce infant mortality and restrict smoking Public perceptions of health risks are also shaped by politics not just science Infant mortality crusades took off in the late nineteenth century not because of any sudden rise in infant mortality rates but because of elite anxieties about the quantity and quality of working class populations *Disease Prevention as Social Change* also documents how culture and hierarchies of race class and gender have affected governmental action and inaction against particular diseases Informed by extensive historical research and contemporary fieldwork *Disease Prevention as Social Change* weaves compelling narratives of the political and social movements behind modern public health policies By comparing the vastly different outcomes of these movements in different historical and cultural contexts this path breaking book advances our knowledge of the conditions in which social activists can succeed in battles over public health
