Preschool Assessment Marla R. Brassard, Ann E. Boehm, 2008-09-16 Education

The Early Childhood Curriculum Suzanne L. Krogh, Pamela Morehouse, 2014-02-18 Based on research that demonstrates the powerful advantages of integrating the curriculum while providing inquiry opportunities The Early Childhood Curriculum shows how to make such an approach work for all children preschool through the primary grades The text demonstrates how to confidently teach using inquiry based methods that address the whole child while also meeting and exceeding academic standards Offering a foundation in early childhood theory philosophy research and development the 2nd edition of this unique textbook helps future teachers as well as current educators understand the why of curriculum in early childhood and invests them with the skills they need to move from simply following a script to knowledgeably creating curricula on their own Since each curricular subject has its own integrity there is a chapter for each discipline grounding the reader in the essentials of the subject in order to foster knowledgeable and effective integration The 2nd edition of The Early Childhood Curriculum includes information on the most recent trends in national curriculum standards particularly in regard to the Common Core State Standards Initiative and the Next Generation Science Standards

Coupled with this information are practical suggestions for meeting standards while still providing young learners with a truly child centered educational experience Chapters contain real life vignettes that demonstrate inquiry and integration in practice The entire text reflects the philosophy that the use of inquiry to seek and obtain information is one of the most valuable and powerful tools children can acquire along the way to becoming lifelong learners

The SAGE Encyclopedia of Contemporary Early Childhood Education Donna Couchenour, J. Kent Chrisman, 2016-08-16 The general public often views early childhood education as either simply babysitting or as preparation for later learning Of course both viewpoints are simplistic Deep understanding of child development best educational practices based on development emergent curriculum cultural competence and applications of family systems are necessary for high quality early education Highly effective early childhood education is rare in that it requires collaboration and transitions among a variety of systems for children from birth through eight years of age The SAGE Encyclopedia of Contemporary Early Childhood Education presents in three comprehensive volumes advanced research accurate practical applications of research historical foundations and key facts from the field of contemporary early childhood education Through approximately 425 entries this work includes all areas of child development physical cognitive language social emotional aesthetic as well as comprehensive review of best educational practices with young children effective preparation for early childhood professionals and policy making practices and addresses such questions as How is the field of early childhood education defined What are the roots of this field of study How is the history of early childhood education similar to yet different from the study of public education What are the major influences on understandings of best practices in early childhood education

Child-Initiated Play and Learning Annie Woods, 2013-03-05 Planning is central to the role of any early years practitioner and involves careful consideration of resources and the learning environment learning outcomes observation and assessment and the unique abilities of individual children This is a big ask and in a busy setting it can be a challenge to adopt a flexible creative approach to planning that embraces the unexpected rather than relying on templates or existing schemes of work This book takes a fresh look at planning to consider the possibilities that should be encouraged when playing alongside young children It shows how a creative approach that allows for spontaneous adventures in play through child led projects leads to rich learning experiences that build on children's own interests Drawing on practice from Reggio Emilia New Zealand Scandinavia and settings in the UK the book covers all aspects of planning including using observations of children to enable them to lead projects organisation of indoor and outdoor learning environments inclusive practice learning through risk taking and adventure play working with parents and carers encouraging the team to consider different ways of working Including encounters from authentic settings and provocative questions for reflective practice this timely new text aims to give students and practitioners the confidence to adopt a flexible approach to planning that will better meet the needs of the children in their care The authors are experienced lecturers practitioners mentors and assessors Working with students

visiting placements training teachers and early years professionals they provide a sense of real purpose in their writing and enjoyment in the themes made explicit throughout this book **Decolonizing Educational Assessment** Ardavan

Eizadirad,2019-09-06 This book examines the history of standardized testing in Ontario leading to the current context and its impact on racialized identities particularly on Grade 3 students parents and educators Using a theoretical argument supplemented with statistical trends the author illuminates how EQAO tests are culturally and racially biased and promote a Eurocentric curriculum and way of life privileging white students and those from higher socio economic status This book spurs readers to further question the use of EQAO standardized testing and challenges us to consider alternative models which serve the needs of all students **Contemporary Perspectives on Research in Assessment and Evaluation in Early Childhood Education** Olivia Saracho,2015-08-01

Researchers educators professional organizations administrators parents and policy makers have increased their involvement in the assessment and evaluation of early childhood education programs This interest has developed swiftly during the last decades The National Association for the Education of Young Children NAEYC and the National Association of Early Childhood Specialists in State Departments of Education NAECS SDE developed a position statement titled Early childhood curriculum assessment and program evaluation Building an effective accountable system in programs for children birth through age 8 to address related trends issues guiding principles and values Appropriate and well designed evaluations need to address several audiences including researchers educators policy makers children and parents They need to encourage the implementation of a strong foundation that improves the quality of the children s education Child assessment and program evaluation can lead to effective results and better accountability for preschool kindergarten and primary school programs The purpose of this volume is to share a collection of research strands on contemporary perspectives on research in assessment and evaluation in early childhood education It provides a review and critical analysis of the literature on assessment and evaluation of programs children teachers and settings The volume begins with a brief introductory chapter that presents the reader with a map of the area laying out the issues and alternatives and linking these to the chapters that follow It addresses several areas including 1 understanding assessment and evaluation with young children 2 schools and assessment implications 3 teacher evaluation and professional development 4 social relationships and assessment 5 content areas in early education assessment 6 technology and assessment and 7 conclusion with future research directions in assessment and evaluation in early childhood education The volume is of interest to researchers educators policy makers university faculty graduate students and general readers who are interested in research on assessment and evaluation in early childhood education The chapters are authored by established scholars in the field
