Assistive Technology for Visually Impaired and Blind People Marion Hersch, Michael A Johnson, 2010-05-12 Equal accessibility to public places and services is now required by law in many countries. For the vision impaired, specialised technology often can provide a fuller enjoyment of the facilities of society from large scale meetings and public entertainments to reading a book or making music. This volume explores the engineering and design principles and techniques used in assistive technology for blind and vision impaired people. This book maintains the currency of knowledge for engineers and health workers who develop devices and services for people with sight loss and is an excellent source of reference for students of assistive technology and rehabilitation.

Assistive Technology for the Elderly Nagender Kumar Suryadevara, Subhas Chandra Mukhopadhyay, 2020-03-11 Assistive Technology for the Elderly addresses the intricacies involved in the design and development of assisted technologies for the elderly covering smart systems such as magnifying book contents, speaking electronic devices, alarms for doors and windows, smart alert bands, panic buttons, medication dispensers and reminders. Wander Gard physiological parameters monitoring systems and smart home monitoring systems. This book is aimed at those who are responsible for designing assistive technology intended to be used by the elderly. It lays out the technology that is already available and covers user needs and state of the art technologies and methodologies. Focuses on practical devices and technology for engineers. Offers deep coverage of sensor based assistive technologies that are elderly for people with dementia, physical disabilities and people living alone. Covers assistive technology ecosystems and offers case studies for practical application.
