Handbook of Infrastructures and Cities Olivier Coutard,Daniel Florentin,2024-04-12 Contributing towards a thriving research area this comprehensive Handbook presents a broad discussion of infrastructure as social phenomena It compiles diverse perspectives to delineate the current infrastructural turn and assess policy and research challenges relating to contemporary forms of infrastructural development

Infrastructures and Social Complexity Penelope Harvey,Casper Bruun Jensen,Atsuro Morita,2016-10-04 Contemporary forms of infrastructural development herald alternative futures through their incorporation of digital technologies mobile capital international politics and the promises and fears of enhanced connectivity In tandem with increasing concerns about climate change and the anthropocene there is further an urgency around contemporary infrastructural provision a concern about its fragility and an awareness that these connective relational systems significantly shape both local and planetary futures in ways that we need to understand more clearly Offering a rich set of empirically detailed and conceptually sophisticated studies of infrastructural systems and experiments present and past contributors to this volume address both the transformative potential of infrastructural systems and their stasis Covering infrastructural figures their ontologies epistemologies classifications and politics and spanning development urban energy environmental and information infrastructures the chapters explore both the promises and failures of infrastructure Tracing the experimental histories of a wide range of infrastructures and documenting their variable outcomes the volume offers a unique set of analytical perspectives on contemporary infrastructural complications These studies bring a systematic empirical and analytical attention to human worlds as they intersect with more than human worlds whether technological or biological

Thinking

Infrastructures Martin Kornberger, Geoffrey C. Bowker, Julia Elyachar, Andrea Mennicken, Peter Miller, Joanne Randa Nucho, Neil Pollock, 2019-08-08 Thinking Infrastructures brings together interdisciplinary research on informational infrastructures to show how thinking thought and cognition as in ideas rationalities and the practice activity of thinking are inseparable from infrastructures

Garbage Citizenship Rosalind Fredericks, 2018-10-16 Rosalind Fredericks traces the volatile trash politics in Dakar Senegal to examine urban citizenship in the context of urban austerity and democratic politics showing how labor is a key component of infrastructural systems and how Dakar's residents use infrastructures as a vital tool for forging collective identities and mobilizing political action

Recycling Infrastructures in Cambodia Kathrin Eitel, 2022-12-06 This book examines the recycling infrastructure in Phnom Penh Cambodia It considers the circular flows of waste and practices through infracycles maintenance practices that tinker with the social and capitalist order and postcolonial ways of doing politics that co constitute predominant waste fantasies from which naturecultures ooze out shaping urban life in their own way In this context socially marginalized waste pickers contest the capitalist system by creating tropes about freedom labor autonomy and the will to survive In this regard they are also meddling about a new social order that represents the fine line Cambodia is sashaying between tradition and modernity Waste fantasies that are a result of environmental problematizations however perpetuate postcolonial ways of doing politics by exuding notions of waste as detached from its sociocultural context But ultimately waste slips through the cracks of these dominant imaginaries and global waste reduction models enacting new versions of what waste and the city is providing opportunities for another future waste policy This book is a unique contribution to the field of infrastructure studies emphasizing the importance of perceiving infrastructure as circular in smaller infracycles rather than linear It will be of interest to researchers in the field of environmental anthropology science and technology studies urban studies and Southeast Asian studies The Introduction of this book is available for free in PDF format as Open Access from the individual product page at www.routledge.com It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Digital Oil Eric Monteiro, 2022-11-08 How is digitalization of the offshore oil industry fundamentally changing how we understand work and ways of knowing Digitalization sits at the forefront of public and academic conversation today calling into question how we work and how we know In Digital Oil Eric Monteiro uses the Norwegian offshore oil and gas industry as a lens to investigate the effects of digitalization on embodied labor and in doing so shows how our use of new digital technology transforms work and knowing For years roughnecks have performed the dangerous and unwieldy work of extracting the oil that lies three miles below the seabed along the Norwegian Continental Shelf Today the Norwegian oil industry is largely digital operated by sensors and driven by data Digital representations of physical processes inform work practices and decision making with remotely operated unmanned deep sea facilities Drawing on two decades of in depth interviews observations news clips and studies of this industry Eric Monteiro dismantles the divide between the virtual and the physical in Digital Oil What is gained

or lost when objects and processes become algorithmic phenomena with the digital inferred from the physical How can data driven work practices and operational decision making approximate qualitative interpretation professional judgement and evaluation How are emergent digital platforms and infrastructures as machineries of knowing enabling digitalization In answering these questions Monteiro offers a novel analysis of digitalization as an effort to press the limits of quantification of the qualitative
