

BRAINWASHED

"Black people are not dark-skinned white people," says advertising visionary Tom Burrell. In fact, they are much more. They are survivors of the Middle Passage and centuries of humiliation and deprivation, who have excelled against the odds, constantly making a way out of "No way!" At this pivotal point in history, the idea of black inferiority should have had a "Going-Out-of-Business Sale." After all, Barack Obama has reached America's Promised Land.

Yet, as *Brainwashed: Challenging the Myth of Black Inferiority* testifies, too many in black America are still wandering in the wilderness. In this powerful examination of "the greatest propaganda campaign of all time"—the masterful marketing of black inferiority, aka the BI Complex—Burrell poses ten disturbing questions that will make black people look in the mirror and ask why, nearly 150 years after the Emancipation Proclamation, so many blacks still think and act like slaves. Burrell's acute awareness of the power of words and images to shift, shape, and change the collective consciousness has led him to connect the contemporary and historical dots that have brought us to this crossroads.

Brainwashed is not a reprimand—it is a call to action. It demands that we question our self-defeating attitudes and behaviors. Racism is not the issue; how we respond to media distortions and programmed self-hatred is the issue. It's time to reverse the BI campaign with a globally based initiative that harnesses the power of new media and the wisdom of intergenerational coalitions. Provocative and powerful, *Brainwashed* dares to expose the wounds so that we, at last, can heal.

Marketing communications pioneer and Advertising Hall of Fame inductee Tom Burrell is credited with revolutionizing the image of African Americans in television and changing the face of American advertising. His award-winning work promoted positive and realistic images of blacks and acknowledged the purchasing power of the African American community. Burrell is the founder of The Resolution Project, theresolutionproject.net, a nonprofit organization that promotes intra-racial dialogue and community-based new media "stop the brainwash" campaign. He lives in Chicago's South Loop area.

Americans have always wrestled with hopelessness Yet in the face of hopelessness African Americans fought for hope that America can be a land of equality opportunity and justice The fight for hope has been difficult and has taken a toll on African Americans Today the signs of hopelessness abound in black communities across the nation as an increasing number of leaders express concern about a pervasive problem that they could not identify Beyond the continuing injustices and inequities linked to systemic racism they recognize a growing internal apathy in African Americans This internal apathy is nihilism the embrace of nothingness meaninglessness and internalized oppression Nihilism has been slowly emerging since the 1980s and is the reason there is an increasing number of blacks who turn to defeating and destructive behaviors that only worsen their plight In nihilism s wake leaders and communities are left trying to help people who have turned on themselves and abandoned hope that things can get better The first step toward hope requires an understanding of hopelessness Only then can we step into a world that pushes people to the brink and hope to make a difference Hope on the Brink offers an exploration into this hopelessness **Critical Race Media Literacy** Jayne Cabbage,2022-07-21 This volume

used his power to advance stereotypical depictions of African Americans The book provides a rich and thorough overview of Tyler Perry s media works In so doing contributors represent and approach their analyses of Perry s work from a variety of theoretical and methodological angles The main themes explored in the volume include the representation of a Black authenticity and cultural production b class religion and spirituality c gender and sexuality and d Black love romance and family Perry s critical acclaim is also explored

Divine Revelation and Human Liberation Harry H. Singleton
III,2020-07-07 Harry H Singleton is concerned in this work with the disparate ways blacks and whites have experienced American history and subsequently the way they have fashioned God s communication to humans formerly referred to as revelation This book makes the case that while white Christian leaders have rooted God s revelation either in an inherently inferior black humanity or a Christian faith void of black suffering black theologians have rooted that same revelation in the plight of oppressed peoples in general and black people in particular i e that God s essence is found in the struggle for human liberation With clarity and passion Professor Singleton draws on the treatments of revelation of the most celebrated white theologians to demonstrate that the Christian theological enterprise has by intent and effect linked God s revelation with black inferiority Black theologians on the other hand have countered seeking a more liberating view of black humanity by making the case that the God of the Bible ultimately intervenes in contexts of human oppression not for their perpetuation but rather for their destruction In this sense Singleton pushes the reader to the conclusion that although the treatments of revelation between white and black theologians have been as different as their lived histories the object of revelation has been the same the humanity of black people Thus Singleton puts forth the bold argument that the racial struggle in America has not only been an historical struggle for determining the humanity of black people but a theological struggle for determining the humanity of black people as well But far from remaining objective Singleton takes the liberating path for black humanity and presses his way through the pages of this work seeking a new paradigm for revelation that no longer places God at the intersection of the white black encounter as a condoner of racism or as a disinterested observer in the racial struggle but rather as an eternal light whose very nature is seen in the continuing quest for human liberation
