Business Networking And Sex Not What You Think:

Business Networking and Sex Ivan Misner, Hazel M. Walker, Frank J. De Raffelle Jr, 2012-01-01 It's no surprise that communicating with the opposite sex can be tricky. Hidden in the glitches are often misleading assumptions about each gender that beg for help. Finally, help is here. Learn the secrets to accurately reading between the gender lines and uncover a new edge for your business: the power to effectively talk business and successfully network with the opposite sex. [The New Advantage](#) Howard J. Morgan, Joelle K. Jay, 2016-03-28 Offering both a male and female perspective on the dilemmas women face in business, this book provides the benefits of high-level executive coaching to all women who want to take control of their careers and achieve their aspirations for corporate leadership. Despite efforts to increase diversity within Fortune 500 companies and larger numbers of highly motivated and educated women in the workforce, women remain vastly underrepresented at the highest levels of corporate leadership. Only about 15 percent of women hold senior executive positions, and about 17 percent are represented on corporate boards worldwide. Only 3-4 percent of CEOs are women. These statistics are in spite of the fact that many companies are actively seeking to take advantage of the financial boost that gender balance at the corporate level brings. Companies that have women in leadership roles are showing higher performance in various measures of profitability, such as revenues, assets, and stockholder value. How can qualified women leaders overcome the myriad longstanding hurdles of the corporate environment and reach the top? Coauthored by executive coaches to some of corporate America's most notable leaders, this practical research and experience-based guide identifies the various barriers that block women from reaching positions of corporate leadership and offers readers specific strategies and approaches that they can utilize to advance themselves into the positions they want and apply their talents and abilities at the very top. The chapters address very specific challenges for women in the business world, such as strengthening and leveraging their closest connections, including those with their mentors and their sponsors; understanding how performance means more than doing their jobs well; garnering positive attention and recognition for their efforts and results; and getting honest, practical feedback that will serve to advance their careers. **How to Effectively Network Within Professional Organizations** Franci Jezek, 2024-07-31 How You Can Effectively Network Within Professional Organizations by Dr. Franci Jezek.
