Postliberal Theology: A Guide for the Perplexed Ronald T. Michener, 2013-02-14 Postliberal theology is a movement in contemporary theology that rejects both the Enlightenment appeal to a universal rationality and the liberal assumption of an immediate religious experience common to all humanity. The movement initially began in the 1980s with its association to Yale Divinity School Theologians such as Hans Frei, Paul Holmer, David Kelsey, and George Lindbeck were influential and were significantly influenced by theologians such as Karl Barth, Clifford Geertz, and Ludwig Wittgenstein. Postliberalism uses a narrative approach to theology such as developed by Hans Frei and argues that all thought and experience is historically and socially mediated. Michener provides the reader with an accessible introductory overview of the origins, current thought, potential problems, and future possibilities of postliberal theology. The basic philosophical and theological background are briefly discussed along with the seminal and predominant theologians identified with the movement. Michener shows how postliberalism emerges from the context of the postmodern critique of Enlightenment rationalism and empiricism. Postliberal theology is extremely critical of classical liberal theology rather than an advancement of its agenda. *SCM Studyguide to Religious and Spiritual Experience* Jeff Astley, 2020-03-31 Spiritual, religious, sacred, or mystical experiences may be broadly defined as subjective human experiences that appear to the person undergoing them or to others to convey or imply contact with or knowledge about a transcendent power, presence, or superior reality beyond the realm of the physical. Research has shown that these forms of awareness of something beyond are of considerable significance in the ordinary lives of very many people as well as being elements of signal importance in the origin and development of religion, not least by deepening characteristically spiritual or religious attitudes, emotions, beliefs, values, and practices along with fundamental orientations of life and quests for meaning. This Studyguide provides a succinct and lucid introduction to the subject for those studying religion at both undergraduate and GCE AS/A level. By exploring the key areas of both the empirical and theoretical study of religious and spiritual experience, the Studyguide will serve as an accessible and nonpartisan guide to enable its readers to explore the range of challenging data, debates, approaches, and issues that relate to the study of this widespread and significant phenomenon. *Islam and China's Hong Kong* Wai-Yip Ho, 2013-06-07 Hong Kong is a global city state under the sovereignty of the People's Republic of China and is home to around 250,000 Muslims practicing Islam. However, existing studies of the Muslim majority communities in Asia and the Northwest China largely ignore the Muslim community in Hong Kong. Islam and China's Hong Kong skillfully fills this gap and investigates how ethnic and Chinese-speaking Muslims negotiate their identities and the increasing public attention to Islam in Hong Kong. Examining a range of issues and challenges facing Muslims in Hong Kong, this book focuses on the three different diasporic Muslim communities and reveals the city state's triple Islamic heritage and distinctive Islamic culture. It begins with the transition from the colonial to the post-colonial era and explores how this has impacted on the experiences of the Muslim diaspora and the ways this shift has

compelled the community to adapt to Chinese nationalism whilst forging greater links with the Gulf. Then with reference to the rise of new media and technology the book examines the heightened presence of Islam in the Chinese public sphere alongside the emergence of Chinese Islamic websites which have sought to balance transnational Muslim solidarity and sensitivity towards Chinese government's concern of external extremism. Finally it concludes by investigating Hong Kong's growing awareness of the Muslim minorities demands for Islamic religious education and how this links with the city state's aspiration to become the new gateway for Islamic finance. Indeed Wai Yip Ho posits that Hong Kong is now shifting from its role as the broker that bridged East and West during the Cold War to that of a new mediator between China and the Middle East. Drawing on extensive ethnographic research this book thoughtfully charts a new area of inquiry and as such will be welcomed by students and scholars of Chinese studies Islamic studies Asian studies and ethnicity studies.

Rorty and the Religious Jacob L. Goodson, Brad Elliott Stone, 2012-08-14 Prior to his death in 2007 the self-described secular philosopher Richard Rorty began to modify his previous position concerning religion. Moving from atheism to anti-clericalism Rorty challenges the metaphysical assumptions that lend justification to abuses of power in the name of religion. Instead of dismissing and ignoring Rorty's challenge the essays in this volume seek to enter into meaningful conversation with Rorty's thought and engage his criticisms in a constructive and serious way. In so doing one finds promising nuggets within Rorty's thought for addressing particular questions within Christianity. The essays in this volume offer charitable yet fully confessional engagements with an impressive secular thinker.

The Bible and Spirituality Andrew T. Lincoln, J. Gordon McConville, Lloyd K. Pieteresen, 2013-07-05 The essays in this volume aim to contribute to the newly developing academic subject of biblical spirituality. It is prompted by the belief that although the Christian tradition has always nurtured an emphasis on spirituality rooted in the Bible and its interpretation few biblical scholars until recently have pursued their work by making connections with either this religious tradition or present day interest in the broader phenomenon of spirituality. Spiritual interpretation has overlaps with theological interpretation but is distinctive because of its focus on the wisdom of lived experience and practice. The essays therefore attempt from within the context of the academy responsible readings of Scripture that have as a major focus the study of how particular texts might contribute to a spirituality in which individual and communal flourishing is a major feature. The essays began as papers produced for an international symposium on the Bible and Spirituality in May 2012 hosted by the Centre for the Study of the Bible and Spirituality in the School of Humanities at the University of Gloucestershire.

Cross Theology Rosalene Bradbury, 2011-01-01 What is theologia crucis the theology of the cross and what are its radical claims? Which theologians stood within this subversive tradition and is Karl Barth amongst them? In this volume New Zealand theologian Rosalene Bradbury throws light on these surprisingly contentious questions. She argues convincingly that tethered to the tradition that gave rise to it the term theologia crucis references a theological system centered around notions of false and true glory and an ancient conviction that from the cross

of Jesus Christ comes a revelatory and a saving Word The apostle Paul Athanasius a school of medieval mystics and the Reformer Martin Luther are all shown to be significant classical representatives of these ideas Bradbury then argues that seminal twentieth century theologian Karl Barth exhibits many of the classical crucicentric system s defining characteristics so that he himself might fairly be deemed a modern theologian of the cross Until now Barth s pivotal role in this long thin crucicentric tradition has been unsung This book thus sheds important new light on Barth s theology *Christian Theology and the Secular University* Paul A. Macdonald, Jr.,2017-02-24 If the secular university by definition is non sectarian or non denominational then how can it accommodate a discipline like Christian theology Doesn t the traditional goal of theological study which is to attain knowledge of the divine fundamentally conflict with the main goal of secular academic study which is to attain knowledge about ourselves and the world in which we live So why should theology be admitted or even care about being admitted into secular academic life And even if theology were admitted what contribution to secular academic life could it make Working from a Christian philosophical and theological perspective but also engaging a wide range of theologians philosophers and religious studies scholars *Christian Theology and the Secular University* takes on these questions arguing that Christian theology does belong in the secular university because it provides distinct resources that the secular university needs if it is going to fulfill what should be its main epistemic and educative ends This book offers a fresh and unique perspective to scholars working in the disciplines of theology philosophy and religious studies and to those in other academic disciplines who are interested in thinking critically and creatively about the place and nature of theological study within the secular university *Disability's Challenge to Theology* Devan Stahl,2022-08-15 Disability s Challenge to Theology uses insights from disability studies to understand in a deeper way the ethical implications that genetic technologies pose for Christian thought Theologians have been debating genetic engineering for decades but what has been missing from many theological debates is a deep concern for persons with genetic disabilities In this ambitious and stimulating book Devan Stahl argues that engagement with metaphysics and a theology of nature is crucial for Christians to evaluate both genetic science and the moral use of genetic technologies such as human genetic engineering gene therapy genetic screenings preimplantation genetic diagnosis and gene editing Using theological notions of creation ex nihilo and natural law alongside insights from disability studies Stahl seeks to recast the debate concerning genetic well being Following the work of Stanley Hauerwas Stahl proposes the church as the locus for reimagining disability in a way that will significantly influence the debates concerning genetic therapies Christianity has all too frequently been complicit in excluding degrading and marginalizing people with disabilities but the new Christian metaphysics developed here provides normative theological guidance on the use of genetic technologies today Only by heeding the voices of people with disabilities can Christians remain faithful to the call to find Christ in the least of these and from there draw closer to God

Sit on Our Hands, or Stand on Our Feet? Roger Philip Abbott,2013-01-07 The aim of *Sit on Our Hands or Stand on Our*

Feet is not to present a theology that explains disasters In fact there is no such theology Nor is this work primarily for those who are responded to it is not part of the theological grab bag that Christian responders carry with them to use for the benefit of casualties It is more a part of the Christian s engaged practical theological apprenticeship prior to and during a response This book represents the role of the practical theologian who empowers the church community s legitimation and contribution in disaster response and who encourages individual Christians whose calling into particularly relevant professions whose natural skills and or professional training could find them placed in a major incident responding status paid or voluntary doing their work as unto the Lord It is a serious must read for any Christians who have hearts heavy with compassion but who are not sure what to do or why when disaster strikes **Theologies of the 21st Century** David L. Smith, 2014-10-02 What theologies are popular and formative of Christian thinking in the present day How should they be assessed by those Christians who want to be in the world without being of the world Theologies of the 21st Century begins with an overview of the historical roots from which current theological thinking has developed and then moves on to a detailed evaluation of the chief doctrinal and practical emphases taking an evangelical biblical perspective that seeks to be at once both critical and irenic
