*Exploring Cats: Their Behaviors and Human-Cat Interactions* Lynette Arnason Hart, Benjamin Hart, Emma Kathryn Grigg, Leslie Ann Lyons, Dennis Clair Turner, 2023-12-27 Cats exceed dogs in their numbers as companion animals in the U S and much of Europe despite them not filling working roles In the past their prowess as mousers on farms sometimes made them essential but these days many cats lead leisurely lives in people s homes What accounts for them becoming such appreciated family members What are their behaviors that are so enticing Exactly how do they respond to us When are they preferred companion animals more than dogs What do we know about cultural differences in views about cats Their growing popularity and the relative paucity of data about owned cats living in homes emphasizes the importance of monitoring their welfare The anthrozoological research literature on companion animals includes extensive studies of dogs while contributing relatively few close looks at the special behaviors and traits of domestic cats that make them so desirable as companions We know little about the dynamics of our interactions with cats and the attachment shared with them which may differ in some ways for those we have with dogs Nor have we identified the specific contexts where cats are particularly or uniquely compatible How does the type of attachment affect and shape the bond relationship between human and cat How are cats as emotional support animals for people with special needs especially autism What new information do we have about the cognitive abilities of domestic cats and how these abilities shape cats behavior and relationships with humans How do early life experiences of cats influence their behavior as adults or their successful integration into human households Do cats fit best in certain residential settings or with specific types or ages of people This Research Topic provides an opportunity to update our understanding on the special qualities and behaviors of cats and to scrutinize our mutual interactions with these companions

**Reshaping Society through Analytics, Collaboration, and Decision Support** Lakshmi S. Iyer, Daniel J. Power, 2014-12-04 This volume explores emerging research and pedagogy in analytics collaboration and decision support with an emphasis on business intelligence and social media In general the chapters help understand where technology

involvement in human decisions is headed Reading the chapters can help understand the opportunities and threats associated with the use of information technology in decision making Computing and information technologies are reshaping our global society but they can potentially reshape it in negative as well as positive ways Analytics collaboration and computerized decision support are powerful decision aiding and decision making tools that have enormous potential to impact crisis decision making regulation of financial systems healthcare decision making and many more important decision domains Many information technologies can potentially support assist and even decide for human decision makers Despite the potential some researchers think that we know the answers to how these technologies will change society The Wisdom of Crowds or Big Data become the topic of the day and are soon replaced with new marketing terms In many ways mobile technology is just another form factor to adapt decision support capabilities too and experiment with new capabilities The cloud is a nebulous metaphor that adds to the mystery of information technology Wireless technology enables the ubiquitous presence of analytics and decision support With new networking capabilities collaboration is possible anywhere and everywhere using voice video and text Documents can be widely shared and massive numbers of documents can be carried on a small tablet computer Recent developments in technologies impact the processes organizations use to make decisions In addition academics are looking for ways to enhance their pedagogy to train students to be more adept in understanding how emerging technology will be used effectively for decision making in organizations The chapters are based on papers originally reviewed at the Special Interest Group on Decision Support Systems SIGDSS Workshop at the 2013 International Conference on Information Systems ICIS 2013 Ultimately this volume endeavors to find a balance between systematizing what we know so we can teach our findings from prior research better and stimulating excitement to move the field in new directions

Advances in Information Retrieval Cathal Gurrin, Yulan He, Gabriella Kazai, Udo Kruschwitz, Suzanne Little, Thomas Roelleke, Stefan Rüger, Keith van Rijsbergen, 2010-04-03 These proceedings contain the papers presented at ECIR 2010 the 32nd European Conference on Information Retrieval The conference was organized by the Knowledge Media Institute KMi the Open University in co operation with Dublin City University and the University of Essex and was supported by the Information Retrieval Specialist Group of the British Computer Society BCS IRSG and the Special Interest Group on Information Retrieval ACM SIGIR It was held during March 28 31 2010 in Milton Keynes UK ECIR 2010 received a total of 202 full paper submissions from Continental Europe 40% UK 14% North and South America 15% Asia and Australia 28% Middle East and Africa 3% All submitted papers were reviewed by at least three members of the international Program Committee Out of the 202 papers 44 were selected as full research papers ECIR has always been a conference with a strong student focus To allow as much interaction between delegates as possible and to keep in the spirit of the conference we decided to run ECIR 2010 as a single track event As a result we decided to have two presentation formats for full papers Some of them were presented orally the others in poster format The presentation format

does not represent any difference in quality. Instead, the presentation format was decided after the full papers had been accepted at the Program Committee meeting held at the University of Essex. The views of the reviewers were then taken into consideration to select the most appropriate presentation format for each paper.

**Probabilistic Approaches For Social Media Analysis: Data, Community And Influence** Kun Yue, Jin Li, Hao Wu, Wei Yi Liu, Zidu Yin, 2020-02-24 This unique compendium focuses on the acquisition and analysis of social media data. The approaches concern both the data-intensive characteristics and graphical structures of social media. The book addresses the critical problems in social media analysis which representatively cover its lifecycle. The must-have volume is an excellent reference text for professionals, researchers, academics, and graduate students in AI and databases.

Social, Cultural, and Behavioral Modeling Kevin S. Xu, David Reitter, Dongwon Lee, Nathaniel Osgood, 2016-06-16 This book constitutes the refereed proceedings of the 9th International Conference on Social Cultural and Behavioral Modeling Prediction and Behavior Representation in Modeling and Simulation SBP BRiMS 2016 held in Washington DC USA in June/July 2016. The 38 full papers presented were carefully reviewed and selected from 78 submissions. The goal of this conference was to build a new community of social cyber scholars by bringing together and fostering interaction between members of the scientific, corporate, government, and military communities interested in understanding, forecasting, and impacting human socio-cultural behavior. For this, three challenges have to be met: deep understanding, socio-cognitive reasoning, and reusable computational technology. Thus, papers come from a wide number of disciplines: computer science, psychology, sociology, communication science, public health, bioinformatics, political science, and organizational science.

*Advances in Selected Artificial Intelligence Areas* Maria Virvou, George A. Tsihrintzis, Lakhmi C. Jain, 2022-02-27 As new technological challenges are perpetually arising, Artificial Intelligence research interests are focusing on the incorporation of improvement abilities into machines in an effort to make them more efficient and more useful. Recent reports indicate that the demand for scientists with Artificial Intelligence skills significantly exceeds the market availability and that this shortage will intensify further in the years to come. A potential solution includes attracting more women into the field as women currently make up only 26 percent of Artificial Intelligence positions in the workforce. The present book serves a dual purpose. On one hand, it sheds light on the very significant research led by women in areas of Artificial Intelligence in hopes of inspiring other women to follow studies in the area and get involved in related research. On the other hand, it highlights the state of the art and current research in selected Artificial Intelligence areas and applications. The book consists of an editorial note and an additional thirteen (13) chapters, all authored by invited women researchers who work on various Artificial Intelligence areas and stand out for their significant research contributions. In more detail, the chapters in the book are organized into three parts: namely i) *Advances in Artificial Intelligence Paradigms*, ii) *Advances in Artificial Intelligence Applications*, and iii) *Recent Trends in Artificial Intelligence Areas and Applications*. This research book is directed towards professors, researchers, scientists, engineers, and students in Artificial Intelligence-related

disciplines It is also directed towards readers who come from other disciplines and are interested in becoming versed in some of the most recent Artificial Intelligence based technologies An extensive list of bibliographic references at the end of each chapter guides the readers to probe further into the Artificial Intelligence areas of interest to them
