Everybody Hurts Rebecca Williams, 2018-05 Have you ever been a fan of a show that was canceled abruptly or that killed off a beloved character unexpectedly Or perhaps it was rebooted after a long absence and now you're worried it won't be as good as the original Anyone who has ever followed entertainment closely knows firsthand that such transitions can be jarring Indeed for truly loyal fans the loss can feel very real even throwing their own identity into question Examining how fans respond to and cope with transitions endings or resurrections in everything from band breakups R E M to show cancellations Hannibal to closing down popular amusement park rides this collection brings together an eclectic mix of scholars to analyze the various ways fans respond to change Essays explore practices such as fan discussion and creating alternative fan fictions as well as cases where fans abandon their objects of interest completely and move on to new ones Shedding light on how fans react both individually and as a community the contributors also trace the commonalities and differences present in fandoms across a range of media and they pay close attention to the ways fandom operates across paratexts and transmedia forms including films comics and television This fascinating approach promises to make an important contribution to the fields of fan media and cultural studies and should appeal widely to students scholars and anyone else with a genuine interest in understanding why these transitions can have such a deep impact on fans' lives Contributors Stuart Bell Anya Benson Lucy Bennett Paul Booth Joseph Brennan Kristina Busse Melissa A Click Ruth Deller Evelyn Deshane Nichola Dobson Simone Driessen Emily Garside Holly Willson Holladay Bethan Jones Nicolle Lamerichs Kathleen Williams Rebecca Williams

Constructing Digital Cultures Judith E. Rosenbaum, 2017-11-01 Announcing presidential decisions debating social issues disputing the latest developments in television shows and sharing funny memes Twitter has become a space where ordinary citizens and world leaders alike share their thoughts and ideas As a result some argue Twitter has leveled the playing field while others reject this view as too optimistic This has led to an ongoing debate about the platform's democratizing potential and whether activity on Twitter engenders change or merely magnifies existing voices Constructing Digital Cultures explores these issues and more through an in-depth examination of how Twitter users collaborate to create cultural understandings Looking closely at how user-generated narratives renegotiate dominant ideas about gender and race it provides insight into the nature of digital culture produced on Twitter and the platform's potential as a virtual public sphere This volume investigates arenas of discussion often seen on Twitter from entertainment and popular culture to politics social justice issues and advertising and looks into how members of ethnic minority groups use and relate to the platform Through an in-depth examination of individual expressions the different kinds of dialogue that characterize the platform and various ways in which people connect Constructing Digital Cultures provides a critical empirically based consideration of Twitter's potential as an inclusive egalitarian public sphere for the modern age
