Male Supremacism in the United States Emily K. Carian, Alex DiBranco, Chelsea Ebin, 2022-04-21 Male Supremacism in the United States is a timely editorial collection providing analysis of current patriarchal misogynistic and antifeminist threats in the United States The book theorizes how male supremacy the system that disproportionately

privileges cis men and subordinates women trans men and nonbinary people and its accompanying ideology of male superiority undergird many of the most crucial phenomena of our time The book examines how male supremacism manifests in three ways as patriarchal traditionalism as secular male supremacism and in its intersections with other systems of oppression From anti abortion activism to misogynist incels to the Proud Boys the collection illustrates how male supremacism plays a vital role in right wing recruitment and organizing The volume s contributions illuminate unique aspects of male supremacist ideology practice and culture Together they provide a sweeping overview of the development and deployment of male supremacism in the United States This book will be of value to anyone studying or researching male supremacism gender feminism women s studies hate studies and the far right **Failing Moms** Caitlin Killian, 2023-09-14

While many claim that being a mom is the most important job in the world in reality motherhood in the United States is becoming harder From preconception through pregnancy and while parenting women are held to ever higher standards and are finding themselves punished both socially and criminally for failing to live up to these norms This book uncovers how women of all ethnic backgrounds and socioeconomic statuses have been interrogated held against their will and jailed for a rapidly expanding list of offenses such as falling down the stairs while pregnant or letting a child spend time alone in a park actions that were not considered criminal a generation ago While poor mothers and moms of color are targeted the most all moms are in jeopardy whether they realize it or not Women and mothers are disproportionately held accountable compared to men and fathers who do not see their reproduction policed and almost never incur charges for failure to protect The gendered inequality of prosecutions reveals them to be more about controlling women than protecting children Using a reproductive justice lens Caitlin Killian analyzes how and why mothers are on a precipice and what must change to prevent mass penalization and instead support mothers and their children
