

THE CAMBRIDGE HANDBOOK OF  
THE INTELLECTUAL  
HISTORY OF  
PSYCHOLOGY

*Edited by Robert J. Sternberg  
and Wade E. Pickren*

# An Intellectual History Of Psychology

**John Offer**

## **An Intellectual History Of Psychology:**

**An Intellectual History of Psychology** Daniel N. Robinson, 1995-09-01 An Intellectual History of Psychology already a classic in its field is now available in a concise new third edition It presents psychological ideas as part of a greater web of thinking throughout history about the essentials of human nature interwoven with ideas from philosophy science religion art literature and politics Daniel N Robinson demonstrates that from the dawn of rigorous and self critical inquiry in ancient Greece reflections about human nature have been inextricably linked to the cultures from which they arose and each definable historical age has added its own character and tone to this long tradition An Intellectual History of Psychology not only explores the most significant ideas about human nature from ancient to modern times but also examines the broader social and scientific contexts in which these concepts were articulated and defended Robinson treats each epoch whether ancient Greece or Renaissance Florence or Enlightenment France in its own terms revealing the problems that dominated the age and engaged the energies of leading thinkers Robinson also explores the abiding tension between humanistic and scientific perspectives assessing the most convincing positions on each side of the debate Invaluable as a text for students and as a stimulating and insightful overview for scholars and practicing psychologists this volume can be read either as a history of psychology in both its philosophical and aspiring scientific periods or as a concise history of Western philosophy s concepts of human nature

**The Cambridge Handbook of the Intellectual History of Psychology** Robert J. Sternberg, Wade E. Pickren, 2019-05-16 We cannot understand contemporary psychology without first researching its history Unlike other books on the history of psychology which are chronologically ordered this Handbook is organized topically It covers the history of ideas in multiple areas of the field and reviews the intellectual history behind the major topics of investigation The evolution of psychological ideas is described alongside an analysis of their surrounding context Readers learn how eminent psychologists draw on the context of their time and place for ideas and practices and also how innovation in psychology is an ongoing dialogue between past present and anticipated future

**An Intellectual History of British Social Policy** John Offer, 2006-01-18 The history of social policy is emerging as an area of growing interest to both students and researchers This topical book charts the period from the 1830s to the present day providing a fresh analysis of the relationship between social theory and social policy in the UK Drawing on recent historical research the book reconsiders and challenges many long held beliefs about the evolution of social policy presents a wide ranging reappraisal of links between social theories and changes in social policy pays particular attention to the importance of idealist social thought as an intellectual framework for understanding the welfare state has a distinctive focus on the importance of ideas in the history of social policy

*An Intellectual History of Liberalism* Pierre Manent, 2019-12-31 Highlighting the social tensions that confront the liberal tradition Pierre Manent draws a portrait of what we citizens of modern liberal democracies have become For Manent a discussion of liberalism encompasses the foundations of modern society its secularism its individualism and its

conception of rights The frequent incapacity of the morally neutral democratic state to further social causes he argues derives from the liberal stance that political life does not serve a higher purpose Through quick moving highly synthetic essays he explores the development of liberal thinking in terms of a single theme the decline of theological politics The author traces the liberal stance to Machiavelli who in seeking to divorce everyday life from the pervasive influence of the Catholic church separated politics from all notions of a cosmological order What followed as Manent demonstrates in his analyses of Locke Hobbes Rousseau Guizot and Constant was the evolving concept of an individual with no goals outside the confines of the self and a state with no purpose but to prevent individuals from dominating one another Weighing both the positive and negative effects of such a political arrangement Manent raises important questions about the fundamental political issues of the day among them the possibility of individual rights being reconciled with the necessary demands of political organization and the desirability of a government system neutral about religion but not about public morals

American Intellectual History Jennifer Ratner-Rosenhagen, 2021 Long before the United States was a nation it was a set of ideas projected onto the New World by European explorers with centuries of belief and thought in tow From this foundation of expectation and experience America and American thought grew in turn enriched by the bounties of the Enlightenment the philosophies of liberty and individuality the tenets of religion and the doctrines of republicanism and democracy In engaging and accessible prose Jennifer Ratner-Rosenhagen's introduction to American thought considers how notions about freedom and belonging the market and morality and even truth have commanded generations of Americans and been the cause of fierce debate *The Oxford Encyclopedia of American Cultural and Intellectual History*, 2013 Over 600 A-Z articles on a wide range of topics in American cultural and intellectual history Explores American cultural and intellectual history from the colonial period to the present day Annotated bibliographies to highlight the major works in the field Expands and updates *The Oxford Companion to United States History* **An Intellectual History of Terror** Mikkel Thorup, 2010-06-30 This book investigates terrorism and anti terrorism as related and interacting phenomena undertaking a simultaneous reading of terrorist and statist ideologists in order to reconstruct the deadly dialogue between them This work investigates an extensive array of violent phenomena and actors trying to broaden the scope and ambition of the history of terrorism studies It combines an extensive reading of state and terrorist discourse from various sources with theorizing of modernity's political institutional and ideological development forms of violence and its guiding images of self and other order and disorder Chapters explore groups of actors terrorists pirates partisans anarchists Islamists neo Nazis revolutionaries soldiers politicians scholars as well as a broad empirical source material and combine them into a narrative of how our ideas and concepts of state terrorism order disorder territory violence and others came about and influence the struggle between the modern state and its challengers The main focus is on how the state and its challengers have conceptualized and legitimated themselves defended their existence and most importantly their violence In doing so the book

situates terrorism and anti terrorism within modernity s grander history of state war ideology and violence This book will be of much interest to students of critical terrorism studies political violence sociology philosophy and Security Studies IR in genera Mikkel Thorup is Assistant Professor at the Institute of Philosophy and the History of Ideas University of Aarhus Denmark

**Economic Theory in the Twentieth Century, An Intellectual History—Volume III** Roberto Marchionatti,2024-03-11 This book set out over four volumes provides a comprehensive history of economic thought in the 20th century Special attention is given to the cultural and historical background behind the development of economic theories the leading or the peripheral research communities and their interactions and a critical appreciation and assessment of economic theories throughout these times Volume III addresses economic theory in the period of the new golden age of capitalism between the years from the end of the Second World War to the mid1970s which saw the establishment of the new mainstream in particular in its Harvard MIT Cowles version It was the period of the pre eminence of the Neoclassical Keynesian Synthesis the theoretical core of the period s dominant school of thought This work provides a significant and original contribution to the history of economic thought and gives insight to the thinking of some of the major international figures in economics It will appeal to students scholars and the more informed reader wishing to further their understanding of the history of the discipline

*The Palgrave Handbook of the History of Human Sciences* David McCallum,2022-08-27 The Palgrave Handbook of the History of Human Sciences offers a uniquely comprehensive and global overview of the evolution of ideas concepts and policies within the human sciences Drawn from histories of the social and psychological sciences anthropology the history and philosophy of science and the history of ideas this collection analyses the health and welfare of populations evidence of the changing nature of our local communities cities societies or global movements and studies the way our humanness or human nature undergoes shifts because of broader technological shifts or patterns of living This Handbook serves as an authoritative reference to a vast source of representative scholarly work in interdisciplinary fields a means of understanding patterns of social change and the conduct of institutions as well as the histories of these ways of knowing probe the contexts circumstances and conditions which underpin continuity and change in the way we count analyse and understand ourselves in our different social worlds It reflects a critical scholarly interest in both traditional and emerging concerns on the relations between the biological and social sciences and between these and changes and continuities in societies and conducts as 21st century research moves into new intellectual and geographic territories more diverse fields and global problematics

**An Intellectual History of Political Corruption** B. Buchan,L. Hill,2014-01-22 Few concepts have witnessed a more dramatic resurgence of interest in recent years than corruption This book provides a compelling historical and conceptual analysis of corruption which demonstrates a persistent oscillation between restrictive public office and expansive degenerative connotations of corruption from classical Antiquity to 1800

When somebody should go to the books stores, search opening by shop, shelf by shelf, it is really problematic. This is why we present the books compilations in this website. It will totally ease you to see guide **An Intellectual History Of Psychology** as you such as.
