An Introduction To The Study Of Paul Continuum Biblical Studies:

An Introduction to the Study of Paul David G. Horrell, 2015-02-26 This tried and tested introduction to Paul needs little introduction of its own After considering Paul's importance and influence and the important sources for the study of Paul the volume covers the following key topics the earliest period of Christianity from Jesus to Paul Paul's life before and after his conversion his individual letters the major elements of his theology his attitude to Israel and the Jewish law perspectives on the Pauline assemblies including their socio economic location meeting places and attitudes towards women and Paul's legacy in the New Testament and beyond The volume has been revised throughout and fully updated with respect to bibliography and to presenting the latest debates surrounding Paul's thought in a manageable format including those around old and new perspectives with a new section on the radical new Jewish perspective and those related to the socio economic status and character of the Pauline assemblies The helpful study questions and reading lists have also been revised **The**

Moral Teaching of Paul Victor Paul Furnish, 2009 Explains Paul's most famous yet often most misunderstood ethical teachings *An Introduction to Revelation* Gilbert Desrosiers, 2005-05-01 The interpretation of the book of Revelation has always aroused controversy and its use and abuse during periods of rapid change has often been a cause for great concern This volume is intended for students of biblical studies attempts a responsible reading of Revelation Desrosiers presents the reader with both the tools and the information required to understand the many approaches that may be taken to interpreting the book and leads the reader toward a sound interpretation *A Critical Introduction to the New Testament* Carl R. Holladay, 2011-07-01 This book introduces the New Testament in two senses it not only provides basic literary and historical information on each of the twenty seven writings but also orients readers to the religious theological and ethical issues related to the message and meaning of Jesus Christ The overall goal is to help interested readers of the New Testament become informed responsible interpreters of these writings and thereby enrich their personal faith and understanding By giving special emphasis to how the New Testament has helped shape the church's identity and theological outlook throughout the centuries as well as the role it has played within the broader cultures of both East and West this introduction also seeks to assist readers in exercising creative informed leadership within their own communities of faith and in bringing a deeper understanding of early Christianity to their conversations with the wider public Along with separate chapters devoted to each New Testament writing there are chapters explaining how this collection of texts emerged as uniquely authoritative witnesses to the church's faith why they were recognized as canonical whereas other early Christian writings were not how the four canonical Gospels are related to one another including a discussion of the Synoptic Problem how the Jesus tradition his teachings stories from his ministry and the accounts of his suffering death and resurrection originated and developed into Gospels written in narrative form and how the Gospels relate to Jesus Christ as he was and is Also included is a chapter on the writings of Paul and how they emerged as a collection of authoritative texts for the church

This chapter includes a discussion of ancient letter writing special considerations for interpreting the Pauline writings and Paul's decisive influence within the history of the church and western culture

An Examination of the Isis Cult with Preliminary Exploration Into New Testament Studies Elizabeth A. McCabe, 2008 This work serves as an investigation of the Isis cult by tracing its development from Egypt into Greco Roman society The origin of the Isis cult is described by using the accounts of Plutarch Apuleius and Diodorus before examining the effects of Isis on Egyptian culture The Isis cult soon overflows into the Greco Roman world While this mysterious religion initially encounters opposition especially since it clashes with Roman patriarchal society it overcomes these limitations The relevance of Isis to New Testament studies is demonstrated by comparing similar Pauline practices to Isiac beliefs and practices The concepts of freedom salvation baptism and resurrection in Pauline Christianity overlap with Isiac beliefs The possibility of the Isis cult as an historical context is explored in the book of 1 Timothy which serves as an example of the intersection between the biblical text and the Egyptian cult of Isis

Being Conformed to Christ in Community James G. Samra, 2008-09-15 This work explores Paul's conception of maturity paying special attention to the maturation process and the role of the local church in facilitating this process Although central to Paul's theology maturity is often overlooked in Pauline studies An exegetical theological study of the seven generally accepted epistles this work makes heuristic use of three studies for the purpose of illuminating Paul's thoughts regarding maturity a survey of modern psychology and analyses of the communities of Qumran and of the Therapeutae Samra argues that Paul understood his apostolic commission to involve delivering mature believers on the day of Christ Samra suggests that the central motif of Pauline maturity is conformity of believers to the image of Christ and that believers attitudes and actions become aligned with those exhibited by Christ who provides the defining standard of maturity for Paul For Paul there are five means used by the Spirit to conform believers to the image of Christ which Samra presents and analyzes as components of the maturation process namely identifying with Christ enduring suffering experiencing the presence of God receiving and living out wisdom from God and imitating a godly example Samra concludes by arguing that Paul expected the local church to facilitate maturation so that believers participation in a local assembly would result in their being conformed to Christ The church does this by facilitating the five components of the maturation process

James and Paul V.

George Shillington, 2015-06-01 Recent interest in the person and work of James of Jerusalem and in the community he led has sometimes put the apostle Paul in a negative light a reversal of the more usual pattern in Protestantism Rather than exaggerating the opposition between these two figures V George Shillington seeks to understand them both without prejudice Examining what can be reconstructed of both men and their respective missions from our sources read critically Shillington concludes that the tension between those missions indicates a conflict between different politics of identity An *Introduction to the Study of St Paul* David G.
