An Education Research Primer How To Understand Evaluate And Use It:

An Education Research Primer Patricia A. Lauer, 2006-03-31 Produced by Mid continent Research for Education and Learning McREL one of the nation's foremost educational research and training organizations An Education Research Primer gives educators a basic understanding of educational research its guiding criteria and its relevance to school based decision making In clear and concise language the book summarizes the various types of educational research explaining their diverse purposes and methods For example the difference between experimental research studies involving control group trials and descriptive research based on descriptive information and relationships is explained including how each is designed to address different types of research questions and why each might have different applications The book also describes what's involved in setting up a comparison control group and how some studies have randomized control groups while others do not In addition the book describes the different types of data collection methods used in research and how this can bear on the research findings

Introduction to Educational Research W. Newton Suter, 2012 W Newton Suter argues that what is important in a changing education landscape is the ability to think clearly about research methods reason through complex problems and evaluate published research He explains how to evaluate data and establish its relevance [Understanding Education Indicators](#) Mike Planty, Deven Carlson, 2015-04-24 In the push to bring data to bear on all of the important education issues of the day one essential fact is often overlooked Not all indicators are created equal This book provides a comprehensive approach for understanding how statistical measures of achievement are developed evaluated and interpreted Given the extent to which accountability measures determine outcomes for schools and students this practical introduction is essential reading for a wide audience that includes school administrators teachers policymakers and the media The authors strive to increase statistical literacy by engaging readers in the process of becoming thoughtful and critical users of data With the practitioner in mind this hands on primer Outlines a viable approach to interpreting the vast array of available data about education in the United States Uses clear jargon free language with real examples from local national and international indicator systems Offers a website www.educationindicator.com with additional resources examples and a forum for up to the minute policy discussions Mike Planty is a statistician at the U S Department of Justice Washington DC Deven Carlson is a Ph D candidate in political science and a graduate research fellow at the Wisconsin Center for Education Research at the University of Wisconsin Madison Mike Planty and Deven Carlson have taken pity on nonexpert readers of the glut of information about schools and in this incisive and clearly written book show how to figure it all out Jay Mathews Washington Post education columnist In a data driven world where competing experts will cite conflicting stats and figures to make their case Planty and Carlson have penned a volume that will prove invaluable to parents practitioners and policymakers trying to separate fact from fiction If you want to know what's really going on in education today read this book Frederick M Hess Director of Education Policy Studies at the American Enterprise Institute

Education researchers policy analysts and journalists interested in understanding what really is going on behind the simple data that drive the education policy debate need this book Jack Buckley New York University and former Deputy Commissioner of the National Center for Education Statistics

The Instructional Playbook Jim Knight, Ann Hoffman, Michelle Harris, Sharon Thomas, 2020-11-25 In schools every day is game day Every day teachers need the best resources and forms of support because students deserve the best we as educators can offer An instructional playbook aims to serve as that kind of support a tool that coaches can use to help teachers match specific learning goals with the right research based instructional strategies Coaches have enormous potential to help teachers learn and implement new teaching practices but coaches will be effective only if they deeply understand the strategies they describe and their explanations are clear The Instructional Playbook The Missing Link for Translating Research into Practice addresses both issues head on and offers a simple and clear explanation of how to create a playbook uniquely designed to meet teachers instructional needs The idea of an instructional playbook has caught fire since Jim Knight described it in The Impact Cycle 2017 This book helps instructional coaches create playbooks that produce a common language about high impact teaching strategies deepen everyone s understanding of what instructional coaches do and most important support teachers and students in classrooms
