Acoustical Imaging Sydney Lees, Leonard A. Ferrari, 2012-12-06 The contents of this volume are the proceedings of the 23rd International Symposium on Acoustical Imaging which took place 13-16 April 1997 in Boston Massachusetts. The first Symposium met 25 years ago. Originally the Symposium met in California then elsewhere within the United States but beginning in 1988 the Symposia began to meet outside of the United States as well. It is now being held about every eighteen months alternately in the United States and then outside. The present pattern is to hold one meeting in East Asia then in the USA then in Europe and again in the USA. However for scheduling reasons the next Symposium will be in Santa Barbara California followed by England and then East Asia. It is to be noted that the Symposium is a free standing institution not associated with any other organization. Each meeting is the total responsibility of its chairman with the advice of past chairmen. Papers are submitted in response to the call for them and reviewed by an International Scientific Advisory Board. The quality depends entirely on the response to the call. It is gratifying to note that the Symposium has attained the status that attracts high quality contributions despite or perhaps because of the loose structure. Two factors that have appeal are that there is only one session and that there is time during the meeting for extensive discussion. **Journal of the American Veterinary Medical Association** American Veterinary Medical Association, 2007 Vols for 1915-49 and 1956 include the Proceedings of the annual meeting of the association.
