Atlas Copco is the leading manufacturer of portable compressed air machines in the world. Used in a wide variety of industries, Atlas Copco has developed a set of machines that successfully walk the line between size, output and capacity.

The drilling world is a high-pressure business. Every foot drilled costs money, so the faster the holes can be bored the better. Atlas Copco's 30 bar compressor delivers higher capacity by higher pressure in the most effective and efficient way.

It is by far, the most cost effective air compressor on the market. Not only is fuel consumption optimised with the exclusive FuelXpert™ system, but components will last longer thanks to Giletronix™ technology.
