Lunar and Interplanetary Trajectories Robin Biesbroek, 2015-12-23 This book provides readers with a clear description of the types of lunar and interplanetary trajectories and how they influence satellite system design The description follows an engineering rather than a mathematical approach and includes many examples of lunar trajectories based on real missions It helps readers gain an understanding of the driving subsystems of interplanetary and lunar satellites The tables and graphs showing features of trajectories make the book easy to understand *Operations Research in Space and Air* Tito A. Ciriani, G. Fasano, S. Gliozzi, Roberto Tadei, 2013-04-18 Operations Research in Space and Air is a selection of papers reflecting the experience and expertise of international OR consulting companies and academic groups The global market and competition play a crucial part in the decision making processes within the Space and Air industries and this book gives practical examples of how advanced applications can be used by Space and Air industry management The material within the book provides both the basic background for the novice modeler and a useful reference for experienced modelers Students researchers and OR practitioners will appreciate the details of the modeling techniques the processes that have been implemented and the computational results that demonstrate the benefits in applying OR in the Space and Airline industries Advances in PC and Workstations technology in optimization engines and in modeling techniques now enable solving problems never before attained by Operations Research In recent years the Italian OR Society AfRO www.airo.org has organized annual forums for researchers and practitioners to meet together to present and discuss the various scientific and technical OR achievements The OR in Space & Air session of AfRO2001 and AfRO2002 Conferences together with

optimization tools applications presented recent results achieved by Alenia Spazio S.p.A. Turin Alitalia Milan Polytechnic and Turin Polytechnic. With additional contributions from academia and industry they have enabled us to capture in print today's state of the art optimization and data mining solutions.
