Branding Digital World Barrie Gunter:

Kids and branding in a digital world Barry Gunter, 2015-11-01 As consumer markets have developed and become more crowded and competitive so brands have become more important in enabling consumers to make informed choices This book shows how children become engaged with brands and understand what they mean and how their relationship with brands changes over time as they mature as consumers It sets this development against the changes that have occurred in styles of brand promotion in the digital world where more subtle ways of reaching consumers have been developed by brand marketers Children become aware of brands from an early age Even before they start school they can recognise brand names and ask for brands by name The meaning of brands to children can vary dramatically with age As with other aspects of consumer socialisation children's initial orientation towards brands occurs at a superficial level because their level of cognitive development does not allow them to understand deeper seated symbolic meanings of brands Children's understanding of brands and the relationships they have with them may also be influenced by the new promotional techniques developed by marketers Children's recognition of advertisements depends upon being able to identify specific features which signal a persuasive message In the online world of social media and computer games the presence of brands may not be recognized as advertising and so the usual learned defenses against persuasion are not triggered This could place young consumers at a disadvantage This phenomenon has raised important questions for parents educators and marketing regulators and these are addressed in this book through reference to the latest research and writings from around the world

Kids and Branding in a Digital World Barrie Gunter, 2016 This book is about how kids become engaged with brands and how their relationship with them changes over time as they mature as consumers Children are introduced to brands at an early age and they have become increasingly brand conscious As consumer markets have developed and become more crowded and competitive so brands have become more important in enabling consumers to make informed choices However it may not always be in a child's best interests to develop a preoccupation with brands particularly if they influence the way they think about themselves This book examines the emergence of brand awareness among children and the importance of their cognitive development to their understanding of brands and consumer socialisation It also sheds light on problems caused by the emergence of new forms of branding in the digital era especially in online social media and virtual environments where so many children now spend a great deal of time and explores the implications for children and for regulators

The Psychology of Consumer Profiling in a Digital Age Barrie Gunter, 2016-05-05 Understanding how consumers choose between different products and services is a crucial part of professional marketing Targeting brands at the consumers most likely to be interested in them is another critical aspect of business success Marketers need to know what consumers think about brands why they like them and what purposes they serve This means delving into the psychology of the consumer to find ways of differentiating between consumers and matching brands to consumer niches at the level of

consumers relationships with brands Using psychology to segment consumers has been regarded as a valuable adjunct to standard geo demographic definitions of market segments The Psychology and Consumer Profiling in a Digital Age examines how this field of psychographics has evolved the different approaches to psychological segmentation of consumers the different ways in which it has been applied in consumer marketing settings and whether psychographics works It draws upon research from around the world and incorporates its analysis of the use of psychographics with an examination of major shifts in marketing in a digital and global era

Children and Television Consumption in the Digital Era Barrie Gunter, 2020-11-29 Children and Television Consumption in the Digital Era provides a comprehensive analysis of contemporary research on the developmental impact of children's screen engagement in modern society Barrie Gunter explores how the world of television has evolved to become almost unrecognisable from the broadcast landscapes present over the last years of the 20th century This key text considers how screen based entertainment has become increasingly interactive and how children have become accustomed to creating their own television schedules through streamed services It explores key topics including screen experiences and the manifestation of prosocial and antisocial behaviour advertising and the development of consumerism and the evidence of screen time on a child's health and school performance Gunter insightfully assesses television content that children are exposed to and its impact on cognitive and behavioural development Featuring commentary on the challenges regulators face to keep up with rapidly developing screen technologies and suggestions on how parents can mediate their children's screen behaviour this text is an essential read for researchers and students taking courses in child development family studies broadcasting and communication
